The Weekend Trend Trader is a trading strategy designed for people who want a simple to follow trading plan that trades just once a week. An ideal investment strategy for people who work full time but are actively planning for their retirement. Weekend Trend Trader is designed for and tested on the US stock Market. The Weekend Trend Trader strategy is a turnkey strategy that uses no discretion. In other words the strategy has a set of rules and users should understand why they entered a trade and when and how they will exit. Because the rules are strictly and mathematically defined we are able to back test the strategy on historical data. This enables us to understand the strategy ' s nuances and therefore better understand how the journey to success will be travelled. The strategy is a combination of several tools that: * ensures you will always be aligned with the trend of the broader market * enters positions at specific points and with reasonable confirmation * manages existing positions with a trailing stop loss * defends existing positions if the trend of the broader market reverses * outlines how much to invest in each position. We will fully step through each of these points in detail and slowly build the system from the ground up.

"One icy winter's evening in Budapest, a man runs straight into John Taylor as he walks home through the narrow streets. John falls over into the snow and looks up at the man's face. 'I felt very afraid. Because what I saw was me. My face looking down at me. My mouth saying sorry.' Who is the man, and how will John's life change?

The story of the automobile manufacturer of France, who became the greatest industrialist of his time, yet ended his life in prison.
