Here's why car prices are so high, and why that matters

One of the most common arguments against the mass adoption of electric vehicles is that between the production process and electricity source, EVs don't actually reduce emissions compared to a ...

Automotive engineers have been working to improve vehicle safety ever since the first car rolled down some pathway well over 100 years ago. Today, there are many new technologies being developed that will improve the safety of future vehicles. Featuring the 69 best safety-related SAE technical papers of 2003, this book provides the most comprehensive information available on current and emerging developments in automotive safety. It gives readers a feel for the direction engineers are taking to reduce deaths and injuries of vehicle occupants as well as pedestrians. All of the papers selected for this book meet the criteria for inclusion in SAE Transactions--the definitive collection of the year's best technical research in automotive engineering technology.

Featuring profiles and photos of over 170 passenger cars, minivans, and four-wheel drive vehicles available for 1999, this book includes the latest suggested retail and

Special edition slipcase edition of John Green's Paper Towns, with pop-up paper town. From the bestselling author of The Fault in our Stars. Quentin Jacobsen has always loved Margo Roth Spiegelman, for Margo (and her adventures) are the stuff of legend at their high school. So when she one day climbs through his window and summons him on an all-night road trip of revenge he cannot help but follow. But the next day Margo doesn't come to school and a week later she is still missing. Q

soon learns that there are clues in her disappearance . . . and they are for him. But as he gets deeper into the mystery - culminating in another awesome road trip across America - he becomes less sure of who and what he is looking for. Masterfully written by John Green, this is a thoughtful, insightful and hilarious coming-of-age story.
