Let's review what's been out there rec ...

Mock draft roundup: The latest on prospects Sixers could take in Round 1

A few months ago I even tried to talk a Fox News viewer out of believing in the lab-leak theory of Covid's origins ... that ran in the Bulletin of the Atomic Scientists earlier this month ...

If the Wuhan lab-leak hypothesis is true, expect a political earthquake

Not only was this an impressive technological accomplishment, but it paved the way for developments that would indelibly alter modern ... around atomic nuclei. It was, after all, this discovery that ...

Quantum Physics

Space plays an increasing role in our everyday lives, even though we might not always be aware of it. Orbiting spacecraft provide a number of services that enhance our quality ...

PERSPECTIVE: How universities can help counter space threats to national security

Considered to be among the most accomplished physicists in history, Einstein is perhaps most famous for developing the theory of relativity ... of a miracle that the modern methods of instruction ...

25 Best Quotes from Albert Einstein

The effects of 'weird weather' were already being felt in the 1960s, but scientists linking fossil fuels with climate change were dismissed as prophets of doom ...

Sixty years of climate change warnings: the signs that were missed (and ignored)

In an electron capture supernova, some of the electrons in the oxygen-neon-magnesium core get smashed into their atomic nuclei in ... That's the theory that was formulated beginning in 1980 ...

Discovery of New Type of Supernova Illuminates Medieval Mystery

Short answer ... his theory of special relativity in 1905. Along with his later expansion, the theory of general relativity, it has become one of the foundational tenets of modern physics.

Is time travel possible?

But modern space telescopes like NASA's Hubble ... one that lit up the cosmos in March 2018 — could finally answer that 1,000-year-old riddle. Related: Hubble just took a gorgeous new image ...

Mystery explosion 1,000 years ago may be a rare, third type of supernova

If you think the buzz of your open-plan office is getting you down, you're right. As workers return to the office after lockdowns, they could be giving up a lot of their concentration too.

Talking, beeping, ringing phones: Research shows open-plan offices really do increase stress

Cosmic rays — atomic nuclei that have ... Can they be unified into a "Theory of Everything?" Perhaps multi-messenger astronomy has the answer. Perhaps by combining information from all ...

Astronomy enters a new age thanks to multi-messenger signals

The modern era of direct attacks by bureaucrats ... They spent nearly four years pushing a theory that Donald Trump colluded with the Russians in the 2016 election that was embarrassingly false.

A Coup Against the Constitution?

We don't want critical race theory taught to our kids ... She had no solutions. She had no answers. She has caused this problem. Joe Biden has caused this problem. Three decisions they made ...

'Watters' World' on the fight against critical race theory

As the name suggests, this area of tech primarily consists of computers that employ quantum theory. Without going ... for the quarter was a cool \$16.43 billion, representing a 30% increase ...

Best Quantum Computing Stock To Buy Now? 4 To Know

Looking at the following generation, Alice Friedman (1998) has discussed the role of women clients in the creation of the modern ... queer theory's stance against categories? Some answers ...

Queer Looks On Architecture: From Challenging Identity-Based Approaches To Spatial Thinking

Yes, and you're doing it right now — hurtling into the future at the impressive rate of one second per second. You're pretty much always moving through time at the same speed, whether you're watching ...
