Noble Truths. Today, millions of people all over the world follow the Buddha's teachings on meditation, selflessness, and compassion. Rendered here in exquisite original watercolor illustrations, this inspiring story is brought to life for young readers curious about one of history's most monumental and influential figures.

Derived from a Buddhist funerary text, this famous volume's timeless wisdom includes instructions for attaining enlightenment, preparing for the process of dying, and moving through the various stages of rebirth.

The Buddha's teachings center around two basic principles. One is the Four Noble Truths, in which the Buddha diagnoses the problem of suffering and indicates the treatment necessary to remedy this problem. The other is the Noble Eightfold Path, the practical discipline he prescribes to uproot and eliminate the deep underlying causes of suffering. The present book offers, in simple and clear language, a concise yet thorough explanation of the Eightfold Path. Basing himself solidly upon the Buddha's own words, the author examines each factor of the path to determine exactly what it implies in the way of practical training. Finally, in the concluding chapter, he shows how all eight factors of the path function in unison to bring about the realization of the Buddhist goal: enlightenment and liberation.

A religion is a system of stories, and there is no better way to engage with the world's religions than through the stories that animate their beliefs and practices. Through the exploration of these ancient stories and contemporary practices, Stephen Prothero, a New York Times bestselling author and gifted storyteller, helps students better grasp the role of religion in our fractured world and to develop greater religious literacy. Videos and an award-winning adaptive learning tool, InQuizitive, further engage students and help them master core objectives and develop their own religious literacy.

A totalitarian regime has ordered all books to be destroyed, but one of the book burners suddenly realizes their merit.

Over a decade after its publication, one book on dating has people firmly in its grip. The New York Times We already rely on science to tell us what to eat, when to exercise, and how long to sleep. Why not use science to help us improve our relationships? In this revolutionary book, psychiatrist and neuroscientist Dr. Amir Levine and Rachel Heller scientifically explain why some people seem to navigate relationships effortlessly, while others struggle. Discover how an understanding of adult attachment—the most advanced relationship science in existence today—can help us find and sustain love. Pioneered by psychologist John Bowlby in the 1950s, the field of attachment posits that each of us behaves in relationships in one of three distinct ways: Anxious people are often preoccupied with their relationships and tend to worry about their partner's ability to love them back Avoidant people equate intimacy with a loss of independence and constantly try to
