Cultivate a love for science by providing standards-based practice that captures children Ōs attention. Spectrum Science for grade 7 provides interesting informational text and fascinating facts about homeostasis, migration, cloning, and acid rain. --When children develop a solid understanding of science, they Ōre preparing for success. Spectrum Science for grades 3-8 improves scientific literacy and inquiry skills through an exciting exploration of natural, earth, life, and applied sciences. With the help of this best-selling series, your young scientist can discover and appreciate the extraordinary world that surrounds them!

Biology is where many of science's most exciting and relevant advances are taking place. Yet, many students leave school without having learned basic biology principles, and few are excited enough to continue in the sciences. Why is biology education failing? How can reform be accomplished? This book presents information and expert views from curriculum developers, teachers, and others, offering suggestions about major issues in biology education: what should we teach in biology and how should it be taught? How can we measure results? How should teachers be educated and certified? What obstacles are blocking reform?

Connect students in grades 6 – 8 with science using Life Science Quest for Middle Grades. This 96-page book helps students practice scientific techniques while studying cells, plants, animals, DNA, heredity, ecosystems, and biomes. The activities use common classroom materials and are perfect for individual, team, and whole-group projects. The book includes a glossary, standards lists, unit overviews, and enrichment suggestions. It is great as core curriculum or a supplement and supports National Science Education Standards.

This lab manual accompanies BJU Press' sold-separately BJU Life Science Grade 7 text. Activites provide an opportunity to solidify text concepts, develop lab skills, learn to record and interpret data, build problem-solving skills, and more. Two types of activites are included: "Applications" and "Investigation." Applications are worksheet-based activities that reinforce vocabulary, thinking skills, and concepts. Investigations are hands-on exercises that included experimets, library research, collecting objects, or other activities. Full-color pages provide space for students to record observations and their thoughts. 376 perforated pages, three-hole-punched, softcover. Grade 7.

At seventh grade, your child will become very busy with school lessons and extra-curricular activities. You can help your child breeze through his lessons on cell biology by giving him a copy of this educational resource. This book combines texts and pictures to make learning as pleasant and effective as possible. Go ahead and grab a copy today.

Students will learn the science of life in this colorful textbook that displays an engaging design sure to grab their attention from the very first day. Each chapter of Life Science includes well-researched material written at grade level, colorful images to reinforce text content, boxes with fun facts and helpful explanations, a list of key terms, a chapter summary, thought-provoking review questions, and extra questions to prepare students for standardized tests. Students will study cell biology, genetics, the history of life, microbiology, botany, zoology, ecology, and human anatomy and physiology, all within a biblical framework. -

Explores the appearance, characteristics, and behavior of protists and fungi, lifeforms which are neither plants nor animals, using specific examples such as algae, mold, and mushrooms.

Spectrum Science is sure to captivate students' interest with a variety of fascinating science information! The lessons, perfect for students in grade 7, strengthen science skills by focusing on scientific tools, ecosystems, biotechnology, and more! Each book features easy-to-understand directions, full-color illustrations, photos, and lively passages. It is aligned to national and state standards, and also includes a complete answer key. Today, more than ever, students need to be equipped with the essential skills they need for school achievement and for success on proficiency tests. The Spectrum series has been designed to prepare students with these skills and to enhance student achievement. Developed by experts in the field of education, each title in the Spectrum workbook series offers grade-appropriate instruction and reinforcement in an effective sequence for learning success. Perfect for use at home or in school, and a favorite of parents, homeschoolers, and teachers worldwide, Spectrum is the learning partner students need for complete achievement.

Connect students in grades 5 – 8 with science using General Science: Daily Skill Builders. This 96-page book features two short, reproducible activities per page and includes enough lessons for an entire school year. It provides extra practice with physical, earth, space, and life science skills. Activities allow for differentiated instruction and can be used as warm-ups, homework assignments, and extra practice. The book supports National Science Education Standards.

Cultivate a love for science by providing standards-based practice that captures children Ōs attention. Spectrum Science for grade 8 provides interesting informational text and fascinating facts about the nature of light, the detection of distant planets, and internal combustion engines. --When children develop a solid understanding of science, they Ōre preparing for success. Spectrum Science for grades 3-8 improves scientific literacy and inquiry skills through an exciting exploration of natural, earth, life, and applied sciences. With the help of this best-selling series, your young scientist can discover and appreciate the extraordinary world that surrounds them!
