The text and images in this book are in grayscale. A hardback color version is available. Search for ISBN 9781680922929. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the “why” as well as the “how” aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

"Intermediate Financial Accounting Volume 1 by G. Arnold and S. Kyle, developed in collaboration by Athabasca University and Lyryx, is intended for a first course in Intermediate Financial Accounting, and presumes that students have already completed one or two Introductory Financial Accounting courses. The textbook reflects current International Financial Reporting Standards (IFRS), such as IFRS 15 - Revenue from Contracts With Customers. This textbook provides a review of introductory accounting concepts and covers all topics essential to a first level Intermediate Accounting course: the conceptual framework and current landscape of financial reporting; statements of financial position; comprehensive income; cash flows and shareholders' equity; cash and receivables; revenue; inventory; property, plant and equipment; intangible assets; and intercorporate investments. For those requiring preparation for CPA designation, competencies as outlined by the CPA are addressed in this textbook. For a detailed competency map, please contact us at info@lyryx.com. It also focuses on more difficult intermediate accounting topics that match prerequisite requirements for students advancing to a second level Intermediate Financial Accounting course. Topics that are covered in Advanced Financial Accounting courses, such as consolidations and foreign exchange, are not included here."--BCcampus website.

Financial Accounting: Volume 1, Arnold, Glenn—

Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the “why” as well as the “how” aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

"The book is divided into two volumes. Volume 1 deals with the financial accounting concepts, principles and procedures. Volume 2 deals with the accounting for partnerships, close corporations, branches and manufacturing entities." -- Preface

Financial Accounting: Volume 1, Arnold, Glenn—

This highly regarded reference is relied on by a considerable part of the accounting profession in their day-to-day work. This handbook is the first place many accountants look to find answers to practice questions. Its comprehensive scope is widely recognized and relied on. It is designed as a single reference source that provides answers to all reasonable questions on accounting and financial reporting asked by accountants, auditors, bankers, lawyers, financial analysts, and other preparers and users of accounting information.

This text is intended for a first course in Intermediate Financial Accounting. It presumes that students have already completed one or two Introductory Financial Accounting courses. The book reflects current International Financial Reporting Standards (IFRS), such as IFRS 15 - Revenue from Contracts With Customers. It focuses on more difficult intermediate accounting topics that match prerequisite requirements for students advancing to a second level Intermediate Financial Accounting course. Advanced topics that are covered in Advanced Financial Accounting courses, such as consolidations and foreign exchange, are not included here. The text is written with an approachable style that focuses on key concepts that will be relevant to students' future careers as accountants.The book provides a review of Introductory Accounting concepts and covers all topics essential to a first level Intermediate Accounting course: the conceptual framework and current landscape of financial reporting; statements of financial position, comprehensive income, cash flows and shareholders' equity; cash and receivables; revenue; inventory; property plant and equipment; intangible assets; and intercorporate investments.Additional supplements are available through Lyryx Learning, including online formative assessment, editorial services, and support for students and instructors.

US public companies will have to follow International Financial Reporting Standards as of January 1, 2011. Weygandt's Financial Accounting: IFRS introduces challenging accounting concepts with examples that are familiar to the student while incorporating the new global accounting standards. Following the reputation for accuracy, comprehensiveness, and currency, Weygandt guides students through financial accounting and the period of transition for IFRS readiness. The text prepares student for the requirements they will follow in the coming years.
