Manual David S. Dummit and Richard M. Foote. It is intended for students who are studying algebra with Dummit and Foote's text. I encourage students who use this guide to first attempt each exercise for themselves before looking up the solution, as doing exercises is an essential part of learning mathematics.

A google search will turn up many sets of solutions to problems from Dummit and Foote's book. It is to your benefit to use these only as a means of checking your answers. Homework is worth very little of your grade -- in order to do well, you need to use homework exercises as an opportunity to learn rather than copy.
