Reviews the circumstances surrounding the Challenger accident to establish the probable cause or causes of the accident. Develops recommendations for corrective or other action based upon the Commission's findings and determinations. Color photos, charts and tables.

Arvid Falk is a young and idealistic government worker who always wanted to be a poet. When a journalist writes a newspaper expos é based on Arvid 's stories about his useless government department, Arvid is fired immediately. Starting afresh he sets out to explore every corner of the Swedish society, and the hypocrisy and corruption he finds shocks him. Walking the streets of Stockholm will never be the same again once this novel gets under your skin. Named the first modern Swedish novel, " The Red Room " (1879) is wonderfully insightful and ironic. The Charles Dickens influence is undeniable and Strindberg 's writing has been rightfully compared to that of Henrik Ibsen as well. August Strindberg (1849-1912) was a world-famous Swedish playwright, who, in Sweden, was known for his novels, poems, essays and paintings as well. Along with Henrik Ibsen, Hans Christian Andersen, S ø ren Kierkegaard and Selma Lagerl ö f he is one of the all-time most influential authors of Scandinavia.

This Dictionary covers information and communication technology (ICT), including hardware and software; information networks, including the Internet and the World Wide Web; automatic control; and ICT-related computer-aided fields. The Dictionary also lists abbreviated names of relevant organizations, conferences, symposia and workshops. This reference is important for all practitioners and users in the areas mentioned above, and those who consult or write technical material. This Second Edition contains 10,000 new entries, for a total of 33,000.

Perimeter Security has taken on a new level of importance since 9/11. Whether insuring the safety of government buildings, hospitals, residences, or bio-research labs, the safety of workers and materials can only be ensured by outfitting all points of entry with the appropriate alarm and surveillance equipment. This comprehensive hands-on resource focuses on designing, installing, and maintaining perimeter security for buildings. Audience includes architects, engineers, facility managers, and security consultants Includes checklists, survey forms, and questionnaires Shows how to plan and design fences, gates, and other barriers; design protective lighting; select the right intrusion detection systems; evaluate risk; and secure specific areas

The purpose of this publication is to provide policy guidance concerning intermediate-level supply management.

Packaged in handsome, affordable trade editions, Clydesdale Classics is a new series of essential works. From the musings of intellectuals such as Thomas Paine in Common Sense to the striking personal narrative of Harriet Jacobs in Incidents in the Life of a Slave Girl, this new series is a comprehensive collection of our intellectual history through the words of the exceptional few. Widely acknowledged as Machiavelli 's defining work, The Prince is an innovative and rich treatise marked by his political theories and the principles of leadership. Based upon his own experiences witnessing " the actions of great men " and the often immoral aspects that come with power, Machiavelli encouraged ambition amongst leaders—which was a break from the philosophy of other contemporary thinkers. The Prince identifies the aims of powerful leaders, which can help to justify the use of largely immoral means in their methods. With a new foreword by scholar Christopher Celenza, this essential work on politics contemplates leadership in a manner still relevant today. This lesson in autocratic rule will provide the reader with the author 's rational approach to control and the contextualization for the term " Machiavellian. "

TCRP report 155 provides guidelines and descriptions for the design of various common types of light rail transit (LRT) track. The track structure types include ballasted track, direct fixation ("ballastless") track, and embedded track. The report considers the characteristics and interfaces of vehicle wheels and rail, tracks and wheel gauges, rail sections, alignments, speeds, and track moduli. The report includes chapters on vehicles, alignment, track structures, track components, special track work, aerial structures/bridges, corrosion control, noise and vibration, signals, traction power, and the integration of LRT track into urban streets.
