methods or curricula/programs in accounting can be improved. Volume 15 includes papers examining communication apprehension, self-directed learning in managerial accounting courses, and a section on integrating accounting with other business disciplines.

Study & Master Accounting Grade 10 has been especially developed by an experienced author team according to the Curriculum and Assessment Policy Statement (CAPS). The comprehensive Learner's Book includes: \* case studies which deal with issues related to the real world, and move learners beyond the confines of the classroom \* margin notes to assist learners with new concepts - especially GAAP flashes, that give learners guidance on General Accepted Accounting Practice \* examples with solutions after the introduction of each new concept. The Teacher's File includes: \* a daily teaching plan, divided into the four terms, that guides the teacher on what to teach per day and per week \* moderation templates to assist teachers with assessment \* solutions to all the activities in the Learner's Book. The CD-Rom with a PowerPoint presentation includes: \* interactive examples to explain new concepts \* links to all solutions to activities and assessments in the Learner's Book

This edited volume provides a comprehensive overview of rural-urban migration in Vietnam. It addresses a wide range of important topics, including Vietnam's household registration system (ho khau), migration trends, remittance behaviour and social networking. In addition, it examines migrants' earnings, their children's schooling, housing issues and their families' consumption behaviour in their destination cities. The book is mainly based on new data from the Australian National University's 'Study of Rural-Urban Migration in Vietnam with Insights from China and Indonesia' (VRUM) project, which identifies migrants from the large-scale, representative 'Vietnam Household Living Standards Survey' 2012 (VHLSS2012). In addition to the data from the VRUM project, the book draws on other widely used data sources to provide a comprehensive picture of rural-urban migrants in Vietnam. By highlighting the issues and challenges brought about by the large-scale rural-urban migration in Vietnam, the book helps researchers and policymakers more effectively formulate policies to respond to those challenges. Moreover, Vietnam's experience can serve as lessons learnt to other transitional/developing countries.

The forward-thinking techniques you need to manage today's diverse classrooms Contemporary educators know that discipline-based classroom management is less effective in today's schools. Evidence shows that a strategy of culturally responsive engagement is essential to giving students the best education, whatever their background. In a readable and compelling text, Laura E. Pinto outlines: Keys to developing the cultural fluency necessary to prepare all students for success. Exercises for teachers to reflect deeply on how they manage their classrooms, and identify areas for improvement. 45 easy strategies—including many that support the Common Core—for boosting engagement and cultural responsiveness in the classroom

This volume examines the accounting issues within Central and Eastern Europe, looking back to the fall of communism (1980s-90s) and its effect on the countries' accounting and business models.

The Practice of Research in Criminology and Criminal Justice, Seventh Edition demonstrates the vital role research plays in criminology and criminal justice by integrating in-depth, real-world case studies with a comprehensive discussion of research methods. By pairing research techniques with practical examples from the field, Ronet D. Bachman and Russell K. Schutt equip students to critically evaluate and confidently conduct research. The Seventh Edition of this best-selling text retains the strengths of previous editions while breaking ground with emergent research methods, enhanced tools for learning in the text and online, and contemporary, fascinating research findings. This edition incorporates new topics like intelligence-led policing, social network analysis (SNA), the evolution of cybercrime, and more. Students engage with the wide realm of research methods available to them, delve deeper into topics relevant to their field of study, and benefit from the wide variety of new exercises to help them practice as they learn.

Fundamentals of Research in Criminology and Criminal Justice: With Selected Readings, by well-known researchers Ronet D. Bachman, Russell K. Schutt, and Peggy S. Plass, is a unique resource for understanding the multifaceted subject of research methods in the field of criminology and criminal justice, amply illustrated by carefully selected and edited research articles from the leading journals in the field. Each of these articles features an introduction, written to draw the student's attention to the specific concept(s) from the chapter that are illustrated in the article, and a series of questions about the article, designed to help the student think critically about and reflect on these concepts. In this way, students not only learn how to conduct research, but also learn why it is important to do so. Building off the widely adopted Fundamentals of Research in Criminology and Criminal Justice, the additional readings increase students' understanding of complex issues being investigated in the field today and how those issues are being researched. Additional instructor resources and study tools can be found online at [study.sagepub.com/bachmanfrccjsr](http://study.sagepub.com/bachmanfrccjsr).

This book explores the complexities of curriculum studies by taking into account African perspectives of curriculum theory, curriculum theorising and the theoriser. It provides alternative pathways to the curriculum discourse in Africa by breaking traditions and experimenting on alternative approaches.

In this seventh edition of Classroom Management Strategies: Gaining and Maintaining Students' Cooperation, the practical orientation of prior editions is retained with its pedagogy that leads the pre-service or in-service teacher to discover how to apply research-based strategies in his or her own classroom.
