Challenging several longstanding notions about the American way of war, this book examines US strategic and operational practice from 1775 to 2014. It surveys all major US wars from the War of Independence to the campaigns in Iraq and Afghanistan, as well as most smaller US conflicts to determine what patterns, if any, existed in American uses of force. Contrary to many popular sentiments, Echevarria finds that the American way of war is not astrategic, apolitical, or defined by the use of overwhelming force. Instead, the American way of war was driven more by political considerations than military ones, and the amount of force employed was rarely overwhelming or decisive. Echevarria discovers that most conceptions of American strategic culture fail to hold up to scrutiny, and that US operational practice has been closer to military science than to military art. This book should be of interest to military practitioners and policymakers, students and scholars of military history and security studies, and general readers interested in military history and the future of military power.

After four years of Trump, America seems set to return to political normality. But for much of the rest of the world, that normality is a horror story: 75 years of US-led invasions, CIA-sponsored coups, election interference, stay-behind networks, rendition, and weapons testing... all in the name of Pax America, the world's police. If you are not an ally of the US, in this [normality], your country can find its democratic processes undermined and its economic wellbeing conditioned upon returning to the fold. If you're not strategically important to the US, you can find yourself its dumping ground. This new anthology re-examines this history with stories that explore the human cost of these interventions on foreign soil, by writers from that soil. From nuclear testing in the Pacific, to human testing of CIA torture tactics, from coups in Latin America, to all-out invasions in the Middle and Far East: the atrocities that follow are often dismissed in history books as inevitable in the [fog of war]. By presenting them from indigenous, grassroots perspectives, accompanied by afterwords by the historians that consulted on them, this book attempts to bring some clarity back to that history. Stories are accompanied by afterwords written by historians, providing historical context. Afterwords by: Olmo Goltz, Emmanuel Gerard, Felix Julio Alfonso Lopez, David Harper, Ertugrul Kurku, Francisco Dominguez, Maurizio Dianese, Julio Barros Zardeto, Brian Meeks, Victor Figueroa Clark, Raymond Bonner, Daniel Kovalik, Meral Cicek, Ian Shaw, Matteo Capasso, Neil Faulkner, Xuan Phuong, Iyad S. S. Abujaber & Chris Hedges. Translated by: Orsola Casagrande, Mustafa Gundogdu, Sawad Hussain, Jonathan Wright, Basma Ghalayini, Nicholas Glastonbury, Sara Khalili, J. Bret Maney, Adam Feinstein, and Megan McDowell. Part of our History-into-Fiction series.

An exhaustive advice book for foreign visitors to the U.S. seeking to understand the motivations, attitudes, and actions of Americans.

A historical assessment of the origins of American war-making and its implications for democracy contends that America's powerful world position has fostered dangerous inclinations toward militarism and imperialism while giving way to the war in Iraq and other conflicts. 100,000 first printing.

REA's English the American Way: A Fun ESL Guide to Language and Culture in the U.S. with Embedded Audio & Mp3 Download Helps English Language Learners Improve Their Skills A fun guide to everything American for the English language learner! Authored by seasoned ESL instructors, this handy guidebook is perfect for people who already have a good grasp of English, but want to improve how they speak the language as it is spoken in the United States. Written in a lighthearted and easy-to-follow style, this book is a great resource for people of all ages and all nationalities. Each unit introduces commonly used phrases, vocabulary, and verbs, and offers sample dialogs to illustrate everyday American life. Sentence completions, quizzes, tips, and illustrations make learning fun. Individual units cover topics essential to the mosaic of American life: making friends, basic skills, driving, dining out, dealing with money, home life, emergency situations, doctor visits, handling a job interview, and more. To improve your pronunciation, listen to the embedded audio that accompanies this e-book or download the Mp3. The audio contains all the dialogues and pronunciation pointers found in the book so you can listen along and practice your speaking skills as you read. The dialogues are read by native speakers and are a great way to work on accent reduction. If you're looking for a fun and easy way to improve your English language skills, this is the book for you!

Real People. Real Stories. Real Politics. Politics involves people, from many backgrounds, struggling to make their voices heard. Real people, telling their stories, reflect our ideals, choices, and collective experiences as a nation. In American Government: Stories of a Nation, author Scott Abernathy tunes in to these voices, showing how our diverse ideas shape the way we participate and behave, the laws we live by, and the challenges we face. Each chapter features real stories illustrating how the American political system is the product of strategies, calculations, and miscalculations of countless individuals. Students learn the nuts and bolts of political science through these compelling stories. Learning concepts in context is a tested learning technique that works to help ideas stick. The key concepts are memorable because they are tied to real politics, where students see political action and political choices shaping how institutions advance or impede the fulfillment of fundamental ideas. Not only will all students see themselves reflected in the pages, but they will come to understand that they, too, are strategic players in American politics, with voices that matter. Just like the Full version, The Essentials edition is perfect for instructors who don't wish to cover the last three chapters on policy.

Create meaningful relationships that translate to better business Access to Asia presents a deeply insightful framework for today's global business leaders and managers, whether traveling from Toronto to Taipei, Baltimore to Bangalore, or San Francisco to Shanghai. Drawing from her extensive experience and global connections, author Sharon Schweitzer suggests that irrespective of their industry, everyone is essentially in the relationship business. Within Asia, building trust and inspiring respect are vital steps in developing business relationships that transcend basic contractual obligations. Readers will find in-the-trenches advice and stories from 80 regional experts in 10 countries, including China, Hong Kong, India, Japan, and Korea. Discover the unique eight-question framework that provides rich interview material and insight from respected cultural experts Track cultural progress over time and highlight areas in need of improvement with the Self-Awareness Profile Learn the little-known facts, reports, and resources that help establish and strengthen Asian business relationships Effective cross-cultural communication is mandatory for today's successful global business leaders. For companies and individuals looking to engage more successfully with their counterparts in Asia, Access to Asia showcases the critical people skills that drive global business success.
