Read Diane McEachern's posts on the Penguin Blog. Protecting our environment is one of the biggest issues facing our planet today. But how do we solve a problem that can seem overwhelming-even hopeless? As Diane MacEachern argues in Big Green Purse, the best way to fight the industries that pollute the planet, thereby changing the marketplace forever, is to mobilize the most powerful consumer force in the world-women. MacEachern's message is simple but revolutionary. If women harness the "power of their purse" and intentionally shift their spending money to commodities that have the greatest environmental benefit, they can create a cleaner, greener world. Spirited and informative, this book: - targets twenty commodities-cars, cosmetics, coffee, food, paper products, appliances, cleansers, and more-where women's dollars can make a dramatic difference; - provides easy-to-follow guidelines and lists so women can choose the greenest option regardless of what they're buying, along with recommended companies they should support; - encourages women to spend wisely by explaining what's worth the premium price some green products cost, what's not, and when they shouldn't spend money at all; and - differentiates between products that are actually "green" and those that are simply marketed as "ecofriendly." Whether readers want to start with small changes or are ready to devote the majority of their budget to green products, MacEachern offers concrete and immediate ways that women can take action and make a difference. Empowering and enlightening, Big Green Purse will become the "green shopping bible" for women everywhere who are asking, "What can I do?"

The inspiring true story of how one African woman began a movement to recycle the plastic bags that were polluting her community. Plastic bags are cheap and easy to use. But what happens when a bag breaks or is no longer needed? In Njau, Gambia, people simply dropped the bags and went on their way. One plastic bag became two. Then ten. Then a hundred. The bags accumulated in ugly heaps alongside roads. Water pooled in them, bringing mosquitoes and disease. Some bags were burned, leaving behind a terrible smell. Some were buried, but they strangled gardens. They killed livestock that tried to eat them. Something had to change. Isatou Ceesay was that change. She found a way to recycle the bags and transform her community. This inspirational true story shows how one person's actions really can make a difference in our world.

Like many people, Beth Terry didn't think an individual could have much impact on the environment. But while laid up after surgery, she read an article about the staggering amount of plastic polluting the oceans and decided then and there to kick her plastic habit. Now she wants to teach you how you can too. In her quirky and humorous style--well known to the readers of her popular blog, My Plastic-Free Life--Terry provides personal anecdotes, stats about the environmental and health problems related to plastic, and personal solutions and tips on how to limit your plastic footprint. Terry includes handy lists and charts for easy reference, ways to get involved in larger community actions, and profiles of individuals-- Plastic-Free Heroes--who have gone beyond personal solutions to create a change on a larger scale. Plastic-Free also includes chapters on letting go of eco-guilt, strategies for coping with overwhelming problems, and ways to relate to other people who aren't as far along on the plastic-free path. Both a practical guide and the story of a personal journey from helplessness to empowerment, Plastic-Free is a must-read for anyone concerned about the ongoing health and happiness of themselves, their children, and the planet.

When Little Croc and his friends find a purse filled with money, they must decide whether to spend the money or turn in the purse.

Lilly loves everything about school, especially her cool teacher, Mr. Slinger. But when Lilly brings her purple plastic purse and its treasures to school and can't wait until sharing time, Mr. Slinger confiscates her prized possessions. Lilly's fury leads to revenge and then to remorse and she sets out to make amends. Lilly, the star of Chester's Way and Julius, the Baby of the World, is back. And this time she has her name in the title - something she's wanted all along. If you thought Lilly was funny before, you are in for a treat. So hurry up and start reading. Lilly can't wait for you to find out more about her.

" The Purse and the Sword presents a critical analysis of Israel's legal system in the context of its politics, history, and the forces that shape its society. This book examines the extensive powers that Israel's Supreme Court arrogated to itself since the 1980s and traces the history of the transformation of its legal system and the shifts in the balance of power between the branches of government. Centrally, this shift has put unprecedented power in the hands of both the Court and Israel's attorney general and state prosecution at the expense of Israel's cabinet, constituting its executive branch, and the Knesset--its parliament. The expansion of judicial power followed the weakening of the political leadership in the wake of the Yom Kippur war of 1973, and the election results in the following years. These developments are detailed in the context of major issues faced by modern Israel, including the war against terror, the conflict with the Palestinians, the Arab minority, settlements in the West Bank, state and religion, immigration, military service, censorship and freedom of expression, appointments to the government and to public office, and government policies. The aggrandizement of power by the legal system led to a backlash against the Supreme Court in the early part of the current century, and to the partial rebalancing of power towards the political branches. Charlie loves the bright red purse that his grandmother let him have. One day, he decides to take it to school. First his father, then his friends, and even the crossing guard question him about his "strange" choice. After all, boys don't carry purses. They point out that they, too, have things they like, but that doesn't mean they go out in public wearing them. But Charlie isn't deterred. Before long, his unselfconscious determination to carry a purse starts to affect those around him. His father puts on his favorite, though unconventional, Hawaiian shirt to go to work; his friend Charlotte paints her face, and the crossing guard wears a pair of sparkly shoes. Thanks to Charlie, everyone around him realizes that it isn't always necessary to conform to societal norms. It's more important to be true to yourself. With its humorous, energetic illustrations, this book is ideal as a read-aloud or as a story for emerging readers. It can also be used as a starting point for a discussion about gender roles.

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

From New York Times bestselling author and world-renowned scientist Jane Goodall, as seen in the National Geographic documentary Jane, comes a fascinating examination of the critical role that trees and plants play in our world. Seeds of Hope takes us from Goodall's home in England to her home-away-from-home in Africa, deep inside the Gombe forest, where she and the chimpanzees are enchanted by the fig and plum trees they encounter. She introduces us to botanists around the world, as well as places where hope for plants can be found, such as The Millennium Seed Bank. She shows us the secret world of plants with all their mysteries and potential for healing our bodies as well as Planet Earth. Looking at the world as an adventurer, scientist, and devotee of sustainable foods and gardening--and setting forth simple goals we can all take to protect the plants around us--Goodall delivers an enlightening story of the wonders we can find in our own backyards.
