Early Christian and Byzantine Architecture | Encyclopedia.com

Much of Byzantine architecture was created to express religious experience and mediate between the believer and God. Taken in its architectural context, the iconographic program of the mosaics and frescoes of the Kariye Camii envelopes the believer within scenes of the Old Testament and the lives of Christ and Mary Mother of God.

Early Christian & Byzantine Architecture | Real Virtual ...

Characteristics of Byzantine Architecture . Original Byzantine churches are square-shaped with a central floor plan. They were designed after the Greek cross or crux immissa quadrata instead of the Latin crux ordinaria of Gothic cathedrals. Early Byzantine churches might have one, dominant center dome of great height, rising from a square base on half-dome pillars or pendentives.

Comparison between early christian and byzantine architecture

The architecture of the Byzantine Empire (4th - 15th century CE) continued its early Roman traditions but architects also added new structures to their already formidable repertoire, notably improved fortification walls and domed churches. There was, as well, a much greater concern for the interiors of buildings rather than their exteriors.

Byzantine Architecture - Ancient History Encyclopedia

Early Christian art and architecture or Paleochristian art is the art produced by Christians or under Christian patronage from the earliest period of Christianity to, depending on the definition used, sometime between 260 and 525. In practice, identifiably Christian art only survives from the 2nd century onwards. After 550 at the latest, Christian art is classified as Byzantine, or of some other regional type. It is hard to know when distinctly Christian art began. Prior to 100, Christians may h

Early Christian art and architecture - Wikipedia

Byzantine architects were eclectic, at first drawing heavily on Roman temple features. Their combination of the basilica and symmetrical central-plan (circular or polygonal) religious structures resulted in the characteristic Byzantine Greek-cross-plan church, with a square central mass and four arms of equal length.
