The development of new technologies places new challenges to the interpretation and implementation of legislation in the information society. The recent deployment of service-oriented computing and cloud computing for online commercial activities has urged countries to amend existing legislation and launch new regulations. With the exponential growth of international electronic commercial transactions, a consistent global standard of regulating the legal effects of electronic communications, the protection of data privacy security and the effectiveness of Internet-related dispute resolution are motivating factors to build users' trust and confidence in conducting cross-border business and their sharing information online. The second edition of this book continues taking a 'solutions to obstacles' approach and analyses the main legal obstacles to the establishment of trust and confidence in undertaking business online. In comparing the legislative frameworks of e-commerce in the EU, US, China and International Organisations, the book sets out solutions to modernise and harmonise laws at the national, regional and international levels in response to current technological developments. It specifically provides information on the key legal challenges caused by the increasing popularity of service-oriented computing and cloud computing as well as the growing number of cross-border transactions and its relation to data privacy protection, Internet jurisdiction, choice of law and online dispute resolution. It considers how greater legal certainty can be achieved in cloud computing service contracts and other agreements resulted in service-oriented computing. The second edition of Law of Electronic Commercial Transactions is a clear and up to date account of a fast-moving area of study. It will be of great value to legislators, politicians, practitioners, scholars, businesses, individuals, postgraduate and undergraduate students. It provides in-depth research into finding solutions to remove eight generic legal obstacles in electronic commercial transactions and offers insights into policy making, law reforms, regulatory developments and self-protection awareness.

This fourth edition of Information Technology Law has been completely revised in the light of developments within the field since publication of the first edition in 1997. Now dedicated to a more detailed analysis of and commentary on the latest developments within this burgeoning field of law, this new edition is an essential read for all those interested in the interface between law and technology and the effect of new technological developments on the law. New additions to the fourth edition include: analysis of regulatory issues and jurisdictional questions specific consideration of intermediary liability developments in privacy and data protection extension of computer crime laws developments in software patents open source software and the legal implications.

Innovative initiatives for online arbitration are needed to aid in resolving cross-border commercial and consumer disputes in the EU, UK, US and China. This book provides a comparative study of online dispute resolution (ODR) systems and a model of best practices, taking into consideration the features and characteristics of various practical experiences/examples of ODR services and technological development for ODR systems and platforms. The book begins with a theoretical approach, looking into the challenges in the use of online arbitration in commercial transactions and analysing the potential adoption of technology-assisted arbitration (e.g. Basic ODR systems and Intelligent/Advanced ODR systems) in resolving certain types of international commercial and consumer disputes. It then investigates the legal obstacles to adopting ODR by examining the compatibility of technology with current legislation and regulatory development. Finally, it suggests appropriate legal and technological measures to promote the recognition of ODR, in particular online arbitration, for cross-border commercial and consumer disputes. By exploring both the theoretical framework and the practical considerations of online arbitration, this book will be a vital reference for lawyers, policy-makers, government officials, industry professionals and academics who are involved with online arbitration.

The professional's favored tool for over a decade, this backbone reference provides a comprehensive set of drafting elements that can be used from contract to contract. Move step-by-step through the contract-creation process --from conducting the initial client meeting to closing the deal, with detailed discussions of the eleven, essential drafting elements, parties, recitals, subject, consideration, warranties and representations, risk allocation, conditions, performance, dates and term, boilerplate, and signatures. A favorite reference tool for professional drafters for over a decade, Drafting Effective Contracts combines a clear analysis of how effective agreements are structured with a practical breakdown of the essential elements of any contract--giving you the best way to draft contracts. This completely updated practical reference guide presents a consistent structural analysis and a comprehensive set of drafting elements that can be used from contract to contract. You are led step-by-step through the process by which contracts are created, given clear sample contract provisions, and offered direction around the obstacles that may be encountered in drafting agreements for goods and services, promissory notes, guaranties, and secured transactions. Drafting Effective Contracts provides a complete handbook for drafting legal agreements that work. For starters, you get a practical and comprehensive approach to the overall contract process--from conducting the initial client meeting to closing the deal. You'll find a detailed discussion of the 11 drafting elements that every contract may have: Parties Recitals Subject Consideration Warranties and Representations Risk Allocation Conditions Performance Dates and Term Boilerplate Signatures After you get a solid explanation of these essential elements and how they're assembled to create effective contracts, you get key strategies for negotiating the agreement and closing the deal. You get an overview of the legal concepts that underpin various types of agreements --such as promissory notes, guaranties, security agreements, and agreements for the sale of goods and services. Then you'll see how to apply the drafting elements to create the finished contract. You also get an array of sample agreements and contracts as well as statutory material. Only Drafting Effective Contracts combines the best benefits of a forms book and a treatise to give you the most complete tool for building effective legal agreements.

As technologies advance and media platforms proliferate, attorneys must be able to guide clients across the multimedia landscape, helping them to avoid pitfalls while maximizing the value of intellectual property. *Scott on Multimedia Law, Third Edition* is the one completely current resource that can take you from start to finish throughout the complex multimedia arena. Only Drafting Effective Contracts combines the best benefits of a forms book and a treatise to give you the most complete tool for building effective legal agreements.

The fifth edition of Information Technology Law continues to be dedicated to a detailed analysis of and commentary on the latest developments within this burgeoning field of law. It provides an essential read for all those interested in the interface between law and technology and the effect of new technological developments on the law. The contents have been restructured and the reordering of the chapters provides a coherent flow to the subject matter. Criminal law issues are now dealt with in two separate chapters to enable a more focused approach to content crime. The new edition contains both a significant amount of incremental change as well as substantial new material and, where possible, case studies have been used to illustrate significant issues. In particular, new additions include:

- Social media and the criminal law;
- The impact of the decision in Google Spain and the 'right to be forgotten';
- The Schrems case and the demise of the Safe Harbour agreement;
- The judicial reassessment of the proportionality of ICT surveillance powers within the UK and EU post the Madrid bombings;
- The expansion of the ICANN gTLDs and the redesigned domain name registration and dispute resolution processes.

International Commercial Arbitration is an authoritative 4,250 page treatise, in three volumes, providing the most comprehensive commentary and analysis, on all aspects of the international commercial arbitration process that is available. The Third Edition of International Commercial Arbitration has been comprehensively revised, expanded and updated, To include all legislative, judicial and arbitral authorities, and other materials in the field of international arbitration prior to June 2020. It also includes expanded treatment of annulment, recognition of awards, counsel ethics, arbitrator independence and impartiality and applicable law. The revised 4,250 page text contains references to more than 20,000 cases, awards and other authorities and will enhance the treatise 's position as the world 's leading work on international arbitration. The first and second editions of International Commercial Arbitration have been routinely relied on by courts and arbitral tribunals around the world ((including the highest courts of the United States, United Kingdom, Singapore, India, Hong Kong, New Zealand, Australia, the Netherlands and Canada) and international arbitral tribunals (including ICC, SIAC, LCIA, AAA, ICSID, SCC and PCA), e.g.: U.S. Supreme Court – GE Energy Power Conversion France SAS, Corp. v. Outokumpu Stainless USA, LLC, 590 U.S. - (U.S. S.Ct. 2020); BG Group plc v. Republic of Argentina, 572 U.S. 25 (U.S. S.Ct. 2014); Canadian Supreme Court – Uber v. Heller, 2020 SCC 16 (Canadian S.Ct.); Yugraneft Corp. v. Rexx Mgt Corp., [2010] 1 R.C.S. 649, 661 (Canadian S.Ct.); U.K. Supreme Court – Jivraj v. Hashwani [2011] UKSC 40, ¶ 78 (U.K. S.Ct.); Dallah Real Estate & Tourism Holding Co. v. Ministry of Religious Affairs, Gov 't of Pakistan [2010] UKSC 46 (U.K. S.Ct.); Swiss Federal Tribunal – Judgment of 25 September 2014, DFT 5A_165/2014 (Swiss Fed. Trib.); Indian Supreme Court – Bharat Aluminium v. Kaiser Aluminium, C.A. No.

7019/2005, ¶ ¶ 138-39, 142, 148-49 (Indian S.Ct. 2012); Singapore Court of Appeal – Rakna Arakshaka Lanka Ltd v. Avant Garde Maritime Servs. Ltd, [2019] 2 SLR 131 (Singapore Ct. App.); PT Perusahaan Gas Negara (Persero) TBK v. CRW Joint Operation, [2015] SGCA 30 (Singapore Ct. App.); Larsen Oil & Gas Pte Ltd v. Petroprod Ltd, [2011] SGCA 21, ¶ 19 (Singapore Ct. App.); Australian Federal Court – Hancock Prospecting Pty Ltd v. Rinehart, [2017] FCAFC 170 (Australian Fed. Ct.); Hague Court of Appeal – Judgment of 18 February 2020, Case No. 200.197.079/01 (Hague Gerechtshof); Arbitral Tribunals – Lao Holdings NV v.
