Feudlings in Flames picks up almos Read Feudlings and this one back to back and they were both very entertaining reads. It took me much longer than normal to finish the two books (especially the second one) and these are books that you will enjoy more if you were to read them without a lot of gaps.

Feudlings (Fate on Fire #1) by Wendy Knight Feudlings was a fun read, and absolutely riveting toward the end. I could not put it down. I could not put it down. The battles near the end of the book seemed very Harry Potter-esque to me, and that's a great thing.

Ari is the most powerful flame-throwing sorceress ever, and her people's last hope in an ancient war. Ari thought being in love with her prophesied nemesis sucked. But being responsible for her best friend's kidnapping? It sucks worse. Ari and Shane thought they'd beaten Fate and ended the three-hundred year war plaguing their people. They thought love had won. But they were so, so wrong. Instead of graduating high school like the normals, they're in a battle to save Charity - Shane's cousin, Ari's best friend, and the seer who might hold the key to ending the war for good. To do that, they're forced to accept help from a boy they aren't even sure they can trust. He's powerful and knows spells even Ari's never heard of, but he's also secretive and has a past he's determined to keep hidden. Add to that the fact that he has his sights set on Ari, and Shane would rather do without his help. Ari has bigger problems than mysterious boys and their strange powers. The powerful Edren Family is hunting her brother, and she can't very well save him or Charity while they're constantly being attacked by her own people. To stop the raids, she has to take the fight to them. But if she starts hunting the family that raised her, what kind of monster will she be? Fate still waits for the death of one by the hand of the other.

Boys of war suck at romance. Charity Delyle has lived in the shadow of her Prodigy cousin and his powerful Guard since the day she was born. And she doesn't mind—really. Except that being in Hunter's shadow means that he can't see her. And she'd like that to change. Hunter has one purpose in life: Protect the Prodigy, or die trying. That means a social life, school, and even Charity come last until the war is over. For the most part, he's okay with that—he can lose everything if he has to...except his seer. Starting at a new school should be much safer than living in a war-ravaged Carules headquarters. But this new school is different than the others. Friendships are forged and destinies are questioned, and Hunter's decision could cost them all everything they've been hoping for.

Nothing makes a new school suck worse than discovering the guy you're in love with is your prophesied nemesis. Ari is the most powerful flame-throwing sorceress ever, and her people's last hope in an ancient war. But she's also a seventeen-year-old girl, and in her free, not-hunting-nemesis times, she jumps from school to school, trying to figure out regular people her own age and pretending she'll get the chance to graduate. Shane lives a double life. He goes to school and masters the art of popularity, hiding the fact that he has a fate with a slim chance of his survival. He's destined to end a 300 year-old war by killing or being killed. He knows he's hunted by a powerful enemy who's not afraid to die. Only problem? He has no idea who that enemy is. When Ari shows up at Shane's school, angry and sullen and determined to keep him at arm's reach, neither of them realize they are supposed to be killing each other, not falling in love. Until Ari does realize it, and she almost dies - by Shane's hand.

Watching helplessly while your baby sister saves the world alone? It kinda sucks. Will Delacour is one of the most powerful sorcerers to ever live. He's Guard to the Edren Prodigy—his sister, Ari. But he walked away from the war, refusing to fight in a cause he didn't believe in. He was deemed a traitor by the powerful Family, and now there's a price on his head that leaves him trapped in a prison of his own making. And he can't even tell the love of his life what she means to him because of the magical war that still controls their lives. Instead of embracing his destiny, Will is forced to watch as Ari goes into battle over and over again, facing her enemies alone. She might be okay with it, but he's not. He might not believe in the war, but he believes in her, and he knows his place is fighting by her side. Somehow, Will has to find a way to be there when Ari needs him, even if it means he forfeits his own life in the process.

Thirteen-year-old half-breed banshee, Seven, likes her life. She leads souls safely to Death and she has the planet's most awesome dad and little brother. But a cryptic message from Atlantis asking for her help changes all that. And then there's Death, who has decided it's time to take her brother's soul.

Now she ' s racing across the world, trying to stay one step ahead of Death. Unfortunately, getting to Atlantis from Ireland isn ' t easy, and there are evil minions determined to keep her away every time she turns around. But fighting for their lives teaches Seven one very important lesson—she isn ' t human, and she isn ' t a banshee. She has to be both if she wants to save her brother and make it back home alive.

Seventeen-year-old Phoenix was taken by the aliens who were supposed to save humanity. But Phoenix didn't die. She escaped. Changed, different. Terrifying. Now she protects the people she used to call neighbors and friends, despite the fact that they don't trust her. She looks like the aliens-beautiful, strong, and winged. And that's why those she protects want her dead. She doesn't blame them. All the while, she's searching for Cole, the boy whose arms she was ripped from the night she was taken. When he shows up at their compound with a new love, everything Phoenix has been fighting for is turned on its head, and she has to figure out what side she's really on and who she really is before she loses herself completely. Never trust beautiful things.

“ I ' ve found very little about private detective R. F. Jackaby to be standard in the time I ' ve known him. Working as his assistant tends to call for a somewhat flexible relationship with reality . . . ” In 1892, New Fiddleham, New England, things are never quite what they seem, especially when Abigail Rook and her eccentric employer, R. F. Jackaby, are called upon to investigate the supernatural. First, members of a particularly vicious species of shape-shifters disguise themselves as a litter of kittens. A day later, their owner is found murdered, with a single mysterious puncture wound to her neck. Then, in nearby Gad ' s Valley, dinosaur bones from a recent dig go missing, and an unidentifiable beast attacks animals and people, leaving their mangled bodies behind. Policeman Charlie Cane, exiled from New Fiddleham to the valley, calls on Abigail for help, and soon Abigail and Jackaby are on the hunt for a thief, a monster, and a murderer. *Beastly Bones*, the second installment in the series, delivers the same quirky humor and unforgettable characters as *Jackaby*, the book the *Chicago Tribune* called “ *Sherlock Holmes* crossed with *Buffy the Vampire Slayer*. ” A 2016 YALSA Best Fiction for Young Adults Title

For as long as there have been people, there has been a fear of the dark. Mothers tell their children there isn't anything in the shadows that isn't there in the light. They are wrong. The reason humanity is afraid of the dark is because that's when demons come out to play. The ghosts that fight them can't come out until the sun goes down, either. And *Soul's Agents*, like *Navi*? They're just normal, boring people until the moon claims the sky. And then they aren't. Death allows lost souls one last chance. Fight with the Agents against demons and darkness and evil and they won't spend eternity roasting on a spit. It seems like an easy enough choice, but apparently roasting is easy and requires little effort, and fighting, well... Fighting is hard. Twenty-two year old *Navi* is an Agent, and she is good at what she does. Her only distraction is the boy who broke her heart four years ago-especially when the demons she hunts start hunting him, and she's the only one who can keep him alive.
