McDonald's Corporation is an American fast food company, founded in 1940 as a restaurant operated by Richard and Maurice McDonald, in San Bernardino, California, United States. They rechristened their business as a hamburger stand, and later turned the company into a franchise, with the Golden Arches logo being introduced in 1953 at a location in Phoenix, Arizona.

Through ten editions, Fox and McDonald's Introduction to Fluid Mechanics has helped students understand the physical concepts, basic principles, and analysis methods of fluid mechanics. This market-leading textbook provides a balanced, systematic approach to mastering critical concepts with the proven Fox-McDonald solution methodology. In-depth yet accessible chapters present governing equations, clearly state assumptions, and relate mathematical results to corresponding physical behavior. Emphasis is placed on the use of control volumes to support a practical, theoretically-inclusive problem-solving approach to the subject. Each comprehensive chapter includes numerous, easy-to-follow examples that illustrate good solution technique and explain challenging points. A broad range of carefully selected topics describe how to apply the governing equations to various problems, and explain physical concepts to enable students to model real-world fluid flow situations. Topics include flow measurement, dimensional analysis and similitude, flow in pipes, ducts, and open channels, fluid machinery, and more. To enhance student learning, the book incorporates numerous pedagogical features including chapter summaries and learning objectives, end-of-chapter problems, useful equations, and design and open-ended problems that encourage students to apply fluid mechanics principles to the design of devices and systems.

Jihad vs. McWorld is a groundbreaking work, an elegant and illuminating analysis of the central conflict of our times: consumerist capitalism versus religious and tribal fundamentalism. These diametrically opposed but strangely intertwined forces are tearing apart--and bringing together--the world as we know it, undermining democracy and the nation-state on which it depends. On the one hand, consumer capitalism on the global level is rapidly dissolving the social and economic barriers between nations, transforming the world's diverse populations into a blandly uniform market. On the other hand, ethnic, religious, and racial hatreds are fragmenting the political landscape into smaller and smaller tribal units. Jihad vs. McWorld is the term that distinguished writer and political scientist Benjamin R. Barber has coined to describe

the powerful and paradoxical interdependence of these forces. In this important new book, he explores the alarming repercussions of this potent dialectic for democracy. A work of persuasive originality and penetrating insight, *Jihad vs. McWorld* holds up a sharp, clear lens to the dangerous chaos of the post-Cold War world. Critics and political leaders have already heralded Benjamin R. Barber's work for its bold vision and moral courage. *Jihad vs. McWorld* is an essential text for anyone who wants to understand our troubled present and the crisis threatening our future.

The movie *The Founder*, starring Michael Keaton, focused the spotlight on Ray Kroc, the man who amassed a fortune as the chairman of McDonald's. But what about his wife Joan, the woman who became famous for giving away his fortune? Lisa Napoli tells the fascinating story behind the historic couple. *Ray & Joan* is a quintessentially American tale of corporate intrigue and private passion: a struggling Mad Men-era salesman with a vision for a fast-food franchise that would become one of the world's most enduring brands, and a beautiful woman willing to risk her marriage and her reputation to promote controversial causes that touched her deeply. Ray Kroc was peddling franchises around the country for a fledgling hamburger stand in the 1950s—McDonald's, it was called—when he entered a St. Paul supper club and encountered a beautiful young piano player who would change his life forever. The attraction between Ray and Joan was instantaneous and instantly problematic. Yet even the fact that both were married to other people couldn't derail their roller coaster of a romance. To the outside world, Ray and Joan were happy, enormously rich, and giving. But privately, Joan was growing troubled over Ray's temper and dark secret, something she was reluctant to publicly reveal. Those close to them compared their relationship to that of Elizabeth Taylor and Richard Burton. And yet, this volatility paved the way for Joan's transformation into one of the greatest philanthropists of our time. A force in the peace movement, she produced activist films, books, and music and ultimately gave away billions of dollars, including landmark gifts to the Salvation Army and NPR. Together, the two stories form a compelling portrait of the twentieth century: a story of big business, big love, and big giving.
