High Performance Crystal Radios Ottawa Electronics Club
While crystal radios are simple and fun to build, the majority of crystal sets built today are ugly in appearance, with a bunch of wires, pins, and other components all exposed on a piece of wood. In this challenge, I have decided to take it a step further to try to build a crystal radio that (1) does not look like a kid's science fair projects and (2) looks beautiful on a display shelf.

Build a High End Multiband Crystal Radio - Avenh Channe
The Geezerla Senior radio I have also built a tiny crystal radio based on some of the good design features of the CR1. My homemade high performance crystal radio. Please note that this radio performs poorly compared to the Armstrong "Crystal" Radio.

A very selective and high performance crystal radio
Umpteen years ago my first radio was a crystal set - the headphones were a pair of war surplus S.G.Brown Type "F" high impedance - they worked really well. A ham neighbour added another coil with a switch to tune the 49metre band which was jumping during the early 50's - the cold war was on - Radio Free Europe, lots of Radio Moscow and the American stations in Berlin, the BBC were doing some ...

crystal radio DXing | RadioReference.com Forums
Here's a pint-sized crystal radio with enough oomph to drive a 2 1/2" speaker. This units selectivity is far better than you would expect to find in a crystal receiver and volume is equal to that obtained with a transistor. No external power source is required. The unusual selectivity of this radio is due to its special double-tuned circuit.

High-Power Crystal Radio
Because the Q-factor of the FM crystal radio is very high, as the frequency shift further away from the central frequency (e.g. 87.97Mhz or 88.03Mhz), the crystal radio appears to be off-tuned and loudness drops. When the frequency shifted back towards the centre frequency (i.e. 88Mhz), loudness increases.

Simple yet loud FM Crystal Radio - The RadioBoard Forums
order online- <https://amzn.to/33g1COI> HIGH DEFINITION CRYSTAL CLEAR SOUND: With this speaker, you'll feel as if you're at a live concert, with clear high notes, deep bass and true HD sound. This advanced Bluetooth speaker has the latest state-of-the-art double 25 WATTS drivers and double passive bass radiators are located on the right and left side of the speaker producing deep, enhanced bass.

Crystal Radio for sale | eBay
A crystal radio receiver, also called a crystal set, is a simple radio receiver, popular in the early days of radio.It uses only the power of the received radio signal to produce sound, needing no external power. It is named for its most important component, a crystal detector, originally made from a piece of crystalline mineral such as galena. This component is now called a diode.

Crystal radio - Wikipedia
High performance crystal radio utilizes a high-efficiencyJFET detector and dual resonant circuits for superior performance. by David W. Cripe KC3ZQ A bstract: This article oscribes a high-performance crystal radio receiver utilizi ng a hign-efficiency Jfui detector; and a dual-resonator tuned circuit for high selectivity. Included are a
