An immune deficiency disease occurs when the immune system is not working properly. If you are born with a deficiency or if there is a genetic cause, it is

called primary immunodeficiency disease....

Immunodeficiency Disorders: Types, Symptoms, and Diagnosis

When a pathogen does infect the body, our body's defences, called the immune system, are triggered and the pathogen is attacked and destroyed or overcome. The body's natural response A pathogen is a bacterium, virus, parasite or fungus that can cause disease within the body.

How do vaccines work?

Immune system, the complex group of defense responses found in humans and other advanced vertebrates that helps repel disease-causing organisms (pathogens). Immunity from disease is actually conferred by two cooperative defense systems, called nonspecific, innate immunity and specific, acquired immunity. Nonspecific protective mechanisms repel all microorganisms equally, while the specific immune responses are tailored to particular types of invaders.

immune system / Description, Function, & Facts / Britannica

for some reason, people with crohn's disease have an immune system that reacts inappropriately. the immune system may be defending the body against helpful microbes by mistake -- or, for some other re

How does the immune system in a person with Crohn's ...

Immune deficiencies may be temporary or permanent. Temporary immune deficiency can be caused by a variety of sources that weaken the immune system. Common infections, including influenza and mononucleosis, can suppress the immune system. When immune cells are the target of infection, severe immune suppression can occur.

Disorders of the Immune System / NIH: National Institute ...

Allergies are the result of your immune system's response to a substance. Immune responses can be mild, from coughing and a runny nose, to a life-threatening reaction know as anaphylaxis. A person becomes allergic when their body develops antigens against a substance. Upon repeated exposure the severity of the reaction may increase.
