World Bank Discussion Paper No. 302. Presents an alternative way of financing development in Sub-Saharan Africa in order to address the shortcomings of past investment lending. This study discusses sector investment programs (SIPs) as an alternative way of financing development in Sub-Saharan Africa in order to address the shortcomings of past investment lending in the region. The report examines the nature and features of SIPs by drawing on the limited experience with such operations in a number of countries to date, including Bangladesh, Mozambique, Pakistan, Tanzania, and Zambia. A SIP is distinguished by its comprehensive sector coverage, by close coordination among all parties, including stakeholders and donors, and by the requirement that it be formulated under local ownership and management

This practical and helpful volume details how clinicians can work through various common challenges in individual, couple, or group psychotherapy. Chapters draw upon clinical wisdom gleaned from the author's 48 years as a practicing psychiatrist to address topics such as using countertransference for therapeutic purposes; resistance, especially when it needs to be the focus of the therapy; and a prioritization of exploration over explanation. Along with theory and clinical observations, Dr. Gans offers a series of "Clinical Pearls," pithy comments that highlight different interventions to a wide range of clinical challenges. These include patient hostility, the abrupt and unilateral termination of therapy, the therapist's loss of compassionate neutrality when treating a couple, and many more. Many of the "Clinical Pearls" prioritize working in the here-and-now. In addition to offering advice and strategies for therapists, the book also addresses concerns like the matter of fees in private practice and the virtue of moral courage on the part of the therapist. Written with clarity, heart, and an abundance of clinical wisdom, *Addressing Challenging Moments in Psychotherapy* is essential reading for all clinicians, teachers, and supervisors of psychotherapy.

From the USA Today Bestselling author of *The Sword of the Templars* and *The Aztec Heresy* Some secrets are too great to bear... Retired Army Ranger Lt. Col. John Holliday has reluctantly settled into his teaching position at West Point when young Israeli archaeologist Rafi Wanounou comes to him with desperate news. Holliday's niece—and Rafi's fiancé—Peggy has been kidnapped. Holliday sets out with Rafi to find the only family he has left. But their search for Peggy will lead them to a trail of clues that spans across the globe, and into the heart of a conspiracy involving an ancient Egyptian legend and the darkest secrets of the Order of Templar Knights. Secrets that, once known, cannot be survived...

Cumulenes are organic molecules with two or more cumulative (consecutive) double bonds. Their reactions often proceed at room temperature, with or without a catalyst, and are stereospecific, giving the reaction products in high yields — features characteristic of "click reactions". *Cumulenes in Click Reactions* presents a comprehensive list of cumulene systems and their reactions, with an emphasis on their "click-like" nature. The chapters are structured according to the number of carbon atoms in the system, including coverage of: introduction to the chemistry of cumulenes one-carbon cumulenes: sulfines, sulfenes, thiocarbonyl S-imides, thiocarbonyl S-sulfides, and 1-aza-2-azoniaallene salts two-carbon cumulenes: carbon oxides, carbon sulfides, carbon nitrides (isocyanates, isothiocyanates, and carbodiimides), phosphallenes, and diarsaallenes 1,2-dicarbon cumulenes: ketenes, thioketenes, ketenimines, 1-silaallenes, 1-phosphaallenes, and other metal allenes 1,3-dicarbon cumulenes: thiocarbonyl S-ylides, 2-azaallene salts, 1-oxa-3-azoniabutatriene salts, 1-thia-3-azoniabutatriene salts, and phosphorous ylides 1,2,3-tricarbon cumulenes: allenes, butatrienes, higher cumulenes and heterobutatrienes noncarbon cumulenes: azides, triazaallene salts, sulfur oxides, sulfur nitrides, N-sulfinylamines, sulfur diimides, and dithionitronium cation *Cumulenes in Click Reactions* is an essential guide for researchers and advanced students in academia and research working in synthetic organic, inorganic and bioorganic chemistry.

Explores how horses, donkeys, and mules are used in the military; introduces Reckless, a horse used by the Marines during the Korean War; and discusses the training for both the soldiers and the animals.

Lists more than 80,000 rhyming words, including single, double, and triple rhymes, and offers information on rhyme schemes, meter, and poetic forms.

Our culture is showing the cracks of a growing fracture. Soaring divorce rates; a crippled economy that rewards the few and punishes the many; religious-fueled hatred; record rates of depression -- the headlines paint a grim picture. We inhabit a society that desperately needs fixing. But as Rabbi Shmuley Boteach reveals in his new book, *Renewal*, our society can be made whole again when we as individuals make the choice to live a life based on values. For too long, conversations about values have been derailed by political movements trying to score points over hot-button issues like gay marriage or abortion. Boteach, one of our wisest and most respected counselors and spiritual experts, reaches deep into our history and into our shared religious legacy to revive the key universal values of Judaism for our struggling world. He presents these age-old ideas as guideposts for the challenges of modern times. These values, whose roots are in the Bible and thousands of years of Jewish spiritual living, can be applied to anyone in the modern world -- from Christians and Muslims to atheists and agnostics -- who want to renew their existence and recommit themselves to the most precious things in life. *Renewal* shows everyone how to use the timeless values of the Hebrew Bible and Judaism to live a more fulfilling, modern life. *Destiny* Unlike the Greeks, who believed that life was scripted from birth, the Jews believe in destiny. In short, they reject the idea of tragic fates and instead champion the individuals'; capacity to create their own destiny through individual choice. *Redemption* Christians and Muslims emphasize salvation, or the need for man to become spiritual -- to refine his character and earn a place in heaven. But Jews believe in world redemption, the capacity for the individuals to make heaven here on earth for, the betterment of the community. *Action* What you do is more important than what you believe. Good deeds always supersede good dogma. *Enlightenment* Jews are an infinitely curious people and believe that the great bane of existence -- boredom -- can only be cured by knowledge. *Marriage* Marriage refers not just to the institution, but rather the softening of the masculine by exposure to the feminine. A culture that does not know how to respect women is bound to collapse. *Struggle* It is wrestling with our nature, rather than attaining perfection, that constitutes true righteousness. Everyone is

somehow flawed, but righteousness is found in the struggle to do right amid a predilection to act selfishly. Sacred Time Whereas other religions sanctify space, Jewish values privilege special moments. The Sabbath day, the holiest day of the week, provides a time for connecting with family and friends.
