Lord Arthur Savile's Crime – Wythall Theatre Company

Lord Arthur Savile's Crime is a short story by Oscar Wilde. I loved the poking fun at the gothic genre, the increasingly amusing events and the almost tangible irony under it all. Adapted from an Oscar Wilde novel or simple writing, it is of course one more tale taking place in Victorian England, nearly a satyiric drama.

An innovative new edition of nine classic short stories from one of the greatest writers of the Victorian era. "I cannot think other than in stories," Oscar Wilde once confessed to his friend André Gide. In his new selection of his short fiction, Wilde's gifts as a storyteller are on full display, accompanied by informative facing-page annotations from Wilde biographer and scholar Nicholas Frankel. A wide-ranging introduction brings readers into the world from which the author drew inspiration. Each story in the collection brims with Wilde's trademark wit, style, and sharp social criticism. Many are reputed to have been written for children, although Wilde insisted this was not true and that his stories would appeal to all "those who have kept the childlike faculties of wonder and joy." "Lord Arthur Savile's Crime" stands alongside Wilde's comic masterpiece The Importance of Being Earnest, while other stories—including "The Happy Prince," the tale of a young ruler who had never known sorrow, and "The Nightingale and the Rose," the story of a nightingale who sacrifices herself for true love—embrace the theme of tragic, forbidden love and are driven by an undercurrent of seriousness, even despair, at the repressive social and sexual values of Wilde's day. Like his later writings, Wilde's stories are a sweeping indictment of the society that would imprint him for his homosexuality in 1895, five years before his death at the age of forty-six. Published here in the form in which Victorian readers first encountered them, Wilde's short stories contain much that appeals to modern readers of vastly different ages and temperaments. They are the perfect distillation of one of the Victorian era's most remarkable writers.

These selected paragraphs distill the contents and give you a quick look inside Lord Arthur Saviles Crime and other stories: In fact, many people seemed afraid to face the odd little man with his stereotyped smile, his gold spectacles, and his bright, beady eyes; and when he told poor Lady Fernor, right out before every one, that she did not care a bit for music, but was extremely fond of musicians, it was generally felt that cheiromancy was a most dangerous science, and one that ought not to be encouraged, except in a te- a te. ...Podgers with a great deal of interest, was filled with an immense curiosity to have his own hand read, and feeling somewhat shy about putting himself forward, crossed over the room to where Lady Windermere was sitting, and, with a charming blush, asked her if she thought Mr. ...The white-smocked carters, with their pleasant sunburnt faces and coarse curly hair, strode sturdily on, cracking their whips, and calling out now and then to each other, on the back of a huge grey horse, the leader of a jangling team, sat a chubby boy, with a bunch of primroses in his battered hat, keeping tight hold of the mane with his little hands, and laughing; and the great piles of vegetables looked like masses of jade against the morning sky, like masses of green jade against the pink petals of some marvellous rose. ...He had also to think of Sybil's father and mother, who were rather old-fashioned people, and might possibly object to the marriage if there was anything like a scandal, though he felt certain that if he told them the whole facts of the case they would be the very first to appreciate the motives that had actuated him ...Of the science of poisons, however, he knew absolutely nothing, and as the waiter seemed quite unable to find anything in the library but Ruff's Guide and Bailey's Magazine, he examined the book-shelves himself, and finally came across a handsomely-bound edition of the Pharmacopoeia, and a copy of Erskine's Toxicology, edited by Sir Mathew Reid, the President of the Royal College of Physicians, and one of the oldest members of the Buckingham, having been elected in mistake for somebody else; a contretemps that so enraged the Committee, that when the real man came up they black-balled him unanimously.

This book presents a theory of long humorous texts based on a revision and an upgrade of the General Theory of Verbal Humour (GTVH), a decade after its first proposal. The theory is informed by current research in psycholinguistics and cognitive science. It is predicated on the fact that there are humorous mechanisms in long texts that have no counterpart in jokes. The book includes a number of case studies, among them Oscar Wilde's Lord Arthur Savile's Crime and Allais' story Han Rybeck. A ground-breaking discussion of the quantitative distribution of humor in select texts is presented.
