mastering arcgis server development with javascript | Book ...

ArcGIS Server lets you design, configure, and publish maps that can be viewed and edited through the Internet. After designing basic maps, you may want to find out new and innovative ways to represent information using these maps.

Mastering ArcGIS Server Development with JavaScript

If you have the ArcGIS Server software running and connected to a web server, you can publish your map online, and serve it through a website running with the ArcGIS JavaScript API (<http://developers.arcgis.com/javascript>). The ArcGIS JavaScript API is a JavaScript library that works with ArcGIS Server to connect the map maker with the general public. The map maker can use an ESRI product, such as ArcMap, to generate a map document.

Mastering ArcGIS Server Development with JavaScript

ArcGIS Online is ESRI's online tool for creating web maps in the cloud. ArcGIS Online provides a way for users to create web maps, mix and match map services and other data sources, modify popups, and share the resulting web maps, either with the general public or within their organizations.
