An easy to follow guide to restoring a classic Mazda MX-5/Miata - the world's favourite small sports car. This book takes you step-by-step through choosing a project car, looking the car over, planning the restoration, and buying parts and tools to perform the work. The comprehensive text is fully supported by high-resolution photographs, guiding you through stripping the car down, cutting out and repairing rust, restoration of interiors, replacing the hood, refurbishing the underside of the car including the floor pan, suspension, brakes, undersealing, reassembly, replacing the cam belt and waterpump, replacing engine seals and gaskets to cure common leaks. It also provides a guide to handy upgrades as you go along. Whether you are looking to restore to original condition or build an out-and-out track weapon, the techniques described in this book will assist you in getting the right base to start with. The book is based on an actual restoration of a vehicle carried out by the author, with before and after shots.

This volume presents current treatment approaches for offenders with mental disorders in a variety of settings. After reviewing administrative and legal issues in the provision of care, the volume addresses therapeutic work with inpatients, outpatients, and incarcerated persons. Separate chapters cover special issues in treatment of sexual offenders, offenders with mental retardation, and juvenile offenders. Throughout, the approaches featured are interdisciplinary and eclectic, incorporating biological and psychological perspectives. This volume will be of use to mental health practitioners as well as legal professionals in criminal justice and mental health law.

The ultimate performance guide to the rotary engines built by Mazda from 1978 to the present. Includes: Engine history and identification ? Rotary engine fundamentals ? Component selection and modifications ? Housings and porting ? Rotors, seals, and internals ? Intake and fuel systems ? Exhaust Systems ? Engine management and ignition ? Oil and lubrication systems ? Forced induction ? Nitrous, water and alcohol injection

This is the fascinating inside story of the design and build of what would become the world's favourite lightweight sports car. Candid text, written by the engineers and designers themselves, guides the reader through every stage of the vehicle's development, from original concept through to the production model that took the world by storm.

Contains general information for technicians on the specifications, MIL resetting and DTC retrieval, accessory drive belts, timing belts, brakes, oxygen sensors, electric cooling fans, and heater cores of twenty-one types of import cars.

Car Manual.
