The second installment in Ben Aaronovitch's 'Rivers of London' series about a supernatural police constable establishes this as a worthwhile series to stick with. It's as good as the first and introduces a villain and plot thread that looks like it will carry things along through the next few books potentially.

Moon Over Soho is an enjoyable, satisfying sophomore entry into the Peter Grant series about a London constable who is now working in magical law enforcement. Peter calls on Leslie after the brutal ending of the first book. As he leaves, he's called to the morgue where Dr. Walid wants Peter to note the definite vestigia about a dead man. Peter gets a clear sound of jazz sax, the kind of clue that only comes with strong magic.

'Moon Over Soho' is the second book in Ben Aaronovitch's PC Peter Grant series. If you haven't read the first, Rivers of London (Rivers of London 1) I would recommend doing so before tackling this volume as it picks up pretty much where the last one left off.
