A fully updated and illustrated handbook providing comprehensive coverage of all curriculum areas covered by the MRCOG Part 1 examination.

A fully updated and illustrated handbook providing comprehensive coverage of all curriculum areas covered by the MRCOG Part 1 examination.

This concise revision text brings together the fundamentals of the basic sciences required for Obstetrics and Gynaecology trainees to pass the MRCOG Part 1 exam. A note-style format and over 100 illustrations make this the ideal revision guide to passing the exam.

Written by two experienced RCOG examiners, both of whom have been involved in the development of the new Part 3 MRCOG examination, this book is essential reading for any trainee preparing to sit the exam. The authors clearly describe the breadth and depth of the curriculum modules and the professional behaviours that will be assessed in the five clinical skills domains. The text includes written examples of every module, links to eight videos showing candidates attempting four real Part 3 tasks, examiners' comments, and a detailed discussion of each example. The content will help candidates understand what is required to pass the examination and how to demonstrate their knowledge and skills to best effect. The book will also be useful for trainers preparing their trainees for the new exam. Based on the principles of good medical practice, there are practical tips here for doctors and obstetricians at all levels.

This concise yet comprehensive guide is focused on the curriculum and current exam style of the MRCOG Part 1 examination. It integrates clinical knowledge with basic science, providing readers with a deeper understanding of pathophysiology of medical disorders in obstetrics and gynaecology. The lead editor is a member of the Part 1 Examination Committee and her insights are skilfully woven into the book's revision notes, sample Single Best Answer (SBA) question and answer explanations, and tips on exam technique. The book encourages a structured thought process to develop, making it easier for clinicians to make differential diagnoses and conduct relevant investigations and treatment plans. The focus on basic sciences also endows readers with the ability to develop research ideas and evaluate findings. Featuring easy-to-read text, highlighted key points, illustrations, and plenty of practice papers, this succinct guide is essential preparation reading for trainee obstetricians and gynaecologists taking the challenging Part 1 MRCOG exam.

This book provides advice and sample questions for the Part 1 MRCOG examination.

This new edition of Textbook for MRCOG –1: Basic Sciences in Obstetrics & Gynaecology is a comprehensive resource for candidates preparing for the MRCOG Part 1 exam, and all medical students wishing to pursue specialisation in obstetrics and gynaecology in the UK. The book is divided into seventeen sections, in accordance with the latest exam format and curriculum from the Royal College of Obstetricians and Gynaecologists (RCOG). The second edition has been fully revised and updated and includes two new chapters on data interpretation and image-based questions. Images, flowcharts and tables assist learning and each topic concludes with SBAs (Single Best Answers) to help students prepare for examinations. 1200 SBAs are included throughout the book. Key Points Comprehensive study resource for MRCOG Part 1 exam candidates Fully revised, second edition with new topics included Includes 1200 SBA questions for self-assessment Previous edition (9789385891281) published in 2016

Designed to help medical students through their exams. Built around the successful 'Essential Revision Notes for MRCP', this title focuses on what is essential learning for medical undergraduates and gives readers an 'all round' knowledge of medicine at this level.

This comprehensive handbook is essential reading for all Part 1 MRCOG candidates.

The definitive guide for Part 3 MRCOG candidates, written by the two examiners leading the development of the new exam.
