Blackout Poetry is a unique and rare form of poetry in which you tear a page from a book, though it may bring a tear to the eye. And forgive the pun "Black out" the whole page but only nearly. Before coloring the page you look for key words or phrases and together with what you've collected you make a poem. This idea came to Rythian from his mentor who prodded and pushed him to become at least decent at the art. This book is dedicated to his mentor and close friend who continues to work with him.

'Finding Light in the Darkness' is a collection of blackout poetry through a journey of depression, love, loss, life and starting over. A mixture of poetry and art made by taking any form of printed text and blacking out the unwanted words to create a poem or statement, it's a form of therapy that promotes overall well-being and mental health.

In this guide to existing law, developing trends, and critical policy determinations, Sableman discusses privacy, Internet communications and policy, censorship, libel and slander, copyright and intellectual property, advertising, broadcasting, and journalistic confidentiality. Through actual cases and practical examples, he examines and explains both the existing rules for communications professionals and the developing policies that deserve the attention and scrutiny of informed citizens. Sableman approaches these subjects as a practicing lawyer experienced in both business and media communications.

**\*A NEW YORK TIMES BESTSELLER\*** For Sarah Hepola, alcohol was "the gasoline of all adventure." She spent her evenings at cocktail parties and dark bars where she proudly stayed till last call. Drinking felt like freedom, part of her birthright as a strong, enlightened twenty-first-century woman. But there was a price. She often blacked out, waking up with a blank space where four hours should be. Mornings became detective work on her own life. What did I say last night? How did I meet that guy? She apologized for things she couldn't remember doing, as though she were cleaning up after an evil twin. Publicly, she covered her shame with self-deprecating jokes, and her career flourished, but as the blackouts accumulated, she could no longer avoid a sinking truth. The fuel she thought she needed was draining her spirit instead. A memoir of unblinking honesty and poignant, laugh-out-loud humor, **BLACKOUT** is the story of a woman stumbling into a new kind of adventure—the sober life she never wanted. Shining a light into her blackouts, she discovers the person she buried, as well as the confidence, intimacy, and creativity she once believed came only from a bottle. Her tale will resonate with anyone who has been forced to reinvent or struggled in the face of necessary change. It's about giving up the thing you cherish most—but getting yourself back in return.

Some of the bravest actions of journalists are unknown, obscured by the passage of time, hidden by veils of anonymity or buried by systematic repression. Profiles in Journalistic Courage corrects this imbalance. With few exceptions, the stories told in this collection are unfamiliar. In the words of Richard Whelan on Robert Capa's vision of the Spanish Civil War, these tales are drawn from the edge of things. Most of the people highlighted here are journalists who worked on the margins of popularity, who blazed new and solitary paths, and who left fleeting legacies. Courageous journalists were not always thanked for their pioneering efforts. Jealousy, political disagreements, and differing conceptions of journalism sometimes fueled criticism of some of those dealt with in this volume. To complicate the subject further, brave journalists do not always act for reasons that win popularity or acclaim. Actions with laudable consequences are sometimes the result of egoism, stubbornness and ignorance, no less than selflessness, prudence, and principle. These psychological dimensions are not avoided in these profiles. In "Yesterday" David Copeland examines the tangled legacy of the trial of John Peter Zenger. Graham Hodges unearths the story of David Ruggles, an African-American journalist and abolitionist. Pamela Newkirk recalls the life and work of Ida B. Wells-Barnett. Pierre Albert explores the journalism of the French Resistance. Bernard L. Stein and Hank Klibanoff describe the work and motives of the civil rights movement. The volume covers the journalism of commitment from Northern Ireland to Native American tribes. It closes with an extended essay by James Boylan on varied perspectives on different aspects of courage in journalism, from the capacity to resist threats to the courage to tell people what they may not want to hear or read.

He's outraged! He's not going to take it anymore! He's... not quite sure what to do next. Meet Hutch and his motley crew of lovable malcontents, struggling to make sense of an America that baffles, oppresses, and infuriates them. Collecting the five-year run of Tom Hart's biting hilarious, bitterly optimistic comic strip!
