Projects are not complex, bar charts can be used to plan and control project activities. These charts divide the project into discrete activities or tasks and analyze each task individually to indicate ...

~~Research and development—PERT and CPM | Britannica~~

1.1 Brief History of CPM/PERT.

CPM/PERT or Network Analysis as the technique is sometimes called, developed along two parallel streams, one industrial and the other military. CPM was the discovery of M.R.Walker of E.I.Du Pont de Nemours & Co. and J.E.Kelly of Remington Rand, circa 1957. The computation was designed for the UNIVAC-I computer.

~~PERT/CPM for Project Scheduling & Management~~

Read Book Operation Research Pert Cpm Cost

The program (or project) evaluation and review technique (PERT) is a statistical tool used in project management, which was designed to analyze and represent the tasks involved in completing a given project.. First developed by the United States Navy in 1958, it is commonly used in conjunction with the critical path method (CPM) that was introduced in 1957.

~~Program evaluation and review technique—Wikipedia~~

PERT and CPM have been used for a variety of projects, including the following types. 1. Construction of a new plant 2. Research and development of a new product 3. NASA space exploration projects 4. Movie productions 5. Building a ship 6. Government-sponsored projects for
