"The Long-Term Care Restorative Nursing Desk Reference" is a new all-inclusive desk reference that describes the clinical aspects of restorative nursing in detail and provides a much-needed guide for nurses in a long-term care facility. This book offers the help you need to create or sustain an effective restorative care program that puts your resident s needs first."

cs.hlth_prof.gerontol

"This resource will help you: Align with MDS 3.0 documentation requirements. Coordinate documentation between nurses and therapists to improve resident care. Gain the perspective of nursing or therapy to appreciate their specific approach to skilled services. Reduce your audit risk and strengthen reimbursement claims with comprehensive documentation. Prove medical necessity and need for skilled care by practicing accurate documentation"--P. [4] of cover.

Restorative care nursing, currently referred to as function focused care, is a philosophy and method of care that enables caregivers to actively help older adults achieve and maintain their highest level of function. This is the only volume written to educate caregivers and administrators about the philosophy of restorative care and how to integrate this philosophy in all types of care settings. This updated second edition contains new content in each chapter along with several entirely new chapters on function-focused care for cognitively impaired adults, ethical issues, and patient-centered
