Includes Part 1, Number 1: Books and Pamphlets, Including Serials and Contributions to Periodicals (January - June)

It is 2050 and after years of denial, it had become a grim reality. The Earth was dying. With limited time to find and establish another habitable planet in one of the many universes, the leaders of the New Interplanetary Space Agency finally overcome aging issues and decide to send a group of fifteen young orphans into space to carry out the mission. Eleven-year-old Drago and the other orphans from around the world are happy to leave their old lives behind as their ship hurls through space. With three adults on board as their guardians, all seems to be going well some ninety days into their journey—until one of the scientists charged with watching the universe through the Hubble telescope notices an anomaly. Unfortunately, the blur on the telescope lens is not a piece of space fuzz as he had hoped—it is a monster wormhole that has consumed the ship, sending the innocent children on board into a different galaxy and toward an unknown
