This work deals with the socio-religious traditions of the Javanese Muslims living in Cirebon, a region on the north coast in the eastern part of West Java. It examines a wide range of popular traditional religious beliefs and practices. The diverse manifestations of these traditions are considered in an analysis of the belief system, mythology, cosmology and ritual practices in Cirebon. In addition, particular attention is directed to the formal and informal institutionalised transmission of all these traditions

To some, the Song of Songs is a simple love story of a man and a maiden. But for those with enlightened hearts, it becomes the key that unlocks the treasure chest of God's divine love. No other portion of Scripture has such power to reveal the journey of those longing to know Jesus like the Song of Songs, Solomon's great prophetic epic that Jesus himself sings over you. The Holy Spirit has hidden within the Song of Songs an amazing journey. Unlock this mystery as you read The Sacred Journey, a verse-by-verse commentary on the Song of Songs that will lead every hungry soul to discover God's fiery heart of love.

This work provides a typology of Islamic ethics, without overlooking the chronological development. Four types of ethical theory are isolated: the scriptural, the theological, the philosophical and the religious. This edition contains extra material from Ibn Sina's writings, translated into English. The book should interest Islamic scholars, philosophers and historians of ethics.

The 4,000-year quest of Judaism, Christianity and Islam.

Despite President George W. Bush's assurances that Islam is a peaceful religion and that all good Muslims hunger for democracy, confusion persists and far too many Westerners remain convinced that Muslims and terrorists are synonymous. In the aftermath of the attacks of 9/11, the subsequent wars in Afghanistan and Iraq, and the recent bombings in London, an unprecedented amount of attention has been directed toward Islam and the Muslim world. Yet, even with this increased scrutiny, most of the public discourse regarding Islam revolves around the actions of extremist factions such as the Wahhabis and al-Qa'ida. But what of the Islam we don't hear about? As the second-largest and fastest-growing religion in the world, Islam is deemed by more than a billion Muslims to be a source of serenity and spiritual peace, and a touchstone for moral and ethical guidance. While extremists have an impact upon the religion that is wildly disproportionate to their numbers, moderates constitute the majority of Muslims worldwide. It is this rift between the quiet voice of the moderates and the deafening statements of the extremists that threatens the future of the faith. In *The Great Theft*, Khaled Abou El Fadl, one of the world's preeminent Islamic scholars, argues that Islam is currently passing through a transformative period no less dramatic than the movements that swept through Europe during the Reformation. At this critical juncture there are two completely opposed worldviews within Islam competing to define this great world religion. The stakes have never been higher, and the future of the Muslim world hangs in the balance. Drawing on the rich tradition of Islamic history and law, *The Great Theft* is an impassioned defense of Islam against the encroaching power of the extremists. As an accomplished Islamic jurist, Abou El Fadl roots his arguments in long-standing historical legal debates and delineates point by point the beliefs and practices of moderate Muslims, distinguishing these tenets from the corrupting influences of the extremists. From the role of women in Islam to the nature of jihad, from democracy and human rights to terrorism and warfare, Abou El Fadl builds a vital vision for a moderate Islam. At long last, the great majority of Muslims who oppose extremism have a desperately needed voice to help reclaim Islam's great moral tradition.
