pogrom and more than 30,000 were imprisoned or sent to concentration camps, where many were brutally mistreated.

Thousands more fled their homelands in Germany and Austria, shocked by what they had seen, heard and experienced.

What they took with them was not only the pain of saying farewell but also the memory of terrible scenes: attacks by mobs of drunken Nazis, public humiliations, burning synagogues, inhuman conditions in overcrowded prison cells and concentration camp barracks.

The reactions of neighbours and passersby to these barbarities ranged from sympathy and aid to scorn, mockery, and abuse. In 1939 the Harvard sociologist Edward Hartshorne gathered eyewitness accounts of the Kristallnacht from hundreds of Jews who had fled, but Hartshorne joined the Secret Service shortly afterwards and the accounts he gathered were forgotten –

courses devoted to the Holocaust, a coherent explanation of why such ghastly carnage erupted from the heart of civilized Europe in the twentieth century still seems elusive even seventy years later.

Numerous theories have sprouted in an attempt to console ourselves and to point the blame in emotionally satisfying directions—yet none of them are fully convincing. As witnesses to the Holocaust near the ends of their lives, it becomes that much more important to unravel what happened and to educate a new generation about the horrors inflicted by the Nazi regime on Jews and non-Jews alike. Why? dispels many misconceptions and answers some of the most basic—yet vexing—questions that remain: why the Jews and not another ethnic group? Why the Germans? Why such a swift and sweeping extermination? Why didn't more Jews fight back more often? Why

didn't they receive more help? While responding to the questions he has been most frequently asked by students over the decades, world-renowned Holocaust historian and professor Peter Hayes brings a wealth of scholarly research and experience to bear on conventional, popular views of the history, challenging some of the most prominent recent interpretations. He argues that there is no single theory that "explains" the Holocaust; the convergence of multiple forces at a particular moment in time led to catastrophe. In clear prose informed by an encyclopedic knowledge of Holocaust literature in English and German, Hayes weaves together stories and statistics to heart-stopping effect. *Why?* is an authoritative, groundbreaking exploration of the origins of one of the most tragic events in human history.

The denial of the Holocaust has no more credibility than the assertion that the earth is flat. Yet there are those who insist that the death of six million Jews in Nazi concentration camps is nothing but a hoax perpetrated by a powerful Zionist conspiracy. Sixty years ago, such notions were the province of pseudohistorians who argued that Hitler never meant to kill the Jews, and that only a few hundred thousand died in the camps from disease; they also argued that the Allied bombings of Dresden and other cities were worse than any Nazi offense, and that the Germans were the “true victims” of World War II. For years, those who made such claims were dismissed as harmless cranks operating on the lunatic fringe. But as time goes on, they have begun to gain a hearing in respectable arenas, and now, in the first full-scale history of Holocaust denial, Deborah Lipstadt shows how—despite tens

of thousands of living witnesses and vast amounts of documentary evidence—this irrational idea not only has continued to gain adherents but has become an international movement, with organized chapters, “independent” research centers, and official publications that promote a “revisionist” view of recent history.

Lipstadt shows how Holocaust denial thrives in the current atmosphere of value-relativism, and argues that this chilling attack on the factual record not only threatens Jews but undermines the very tenets of objective scholarship that support our faith in historical knowledge. Thus the movement has an unsuspected power to dramatically alter the way that truth and meaning are transmitted from one generation to another.
