In the sequel to Slave Girl, a survivor of the sex trade details her recovery process, which she realizes must include a return to the site of her trauma to aid others In Slave Girl, Sarah Forsyth told of her terrible ordeal as a young woman sex-trafficked from England to the red-light district of Amsterdam, and of her dramatic escape from forced prostitution. But as she relates in this memoir, Sarah's journey from the dark back into light was far from over. She discusses how, still addicted to drugs and drink, she struggled to cope with life, with love, and with the marriage she desperately hoped would bring her happiness. It would take three more long and painful years to be rid of the terrible after-effects of sex slavery. But as she fought her draining battle to survive, Sarah came to realize that there was something she needed to do. It was a decision that would take her back into the modern scandal of sex trafficking-and back into the hell of Amsterdam's red-light district. This is the incredible story of her very personal mental journey to find goodness within herself, and the shocking and painful physical journey to find the sex slaves she left behind. Both are journeys which will take all the strength, courage, and love that she has-but if she is to survive, they are journeys she must make.

Sex abuse.

Sarah Forsyth has spent most of her life in fear. After overcoming the hurt and heartbreak of a horrific childhood, Sarah managed to build a new life for herself as a nursery nurse. Then, one day, she spotted a newspaper advert for a job in a creche in Amsterdam. Excited by the prospect of a fresh start abroad, she eagerly signed up. But within minutes of stepping off the plane in Amsterdam her life began to fall apart... There was no creche and no job. That night, at just nineteen years of age, her life - her real life, her life as Sarah Forsyth - ended. Fed cocaine and cannabis, and forced at gunpoint to work as a prostitute in the Red Light District of Amsterdam: Sarah was a victim of sex-trafficking. Sarah Forsyth is a survivor. This is her heartbreaking story.

Prince - a slave in the British colonies - vividly recalls her life in the West Indies, her rebellion against physical and psychological degradation, and her eventual escape in 1828 in England.

"An atmospheric, compelling story of survival, tragedy, the enduring power of myth and memory, and the moments that change one's life." --Kristin Hannah, #1 New York Times bestselling author of The Four Winds "[An] enthralling and emotional tale...A story about strength and fate."--Woman's World "An epic novel that explores the metal of human spirit in crisis. The luxury steamship sank in 1838 with Savannah's elite on board; through time, their fates were forgotten--until the wreck was found, and now their story is finally being told in this breathtaking novel from the New York Times bestselling author of Becoming Mrs. Lewis. When Savannah history professor Everly Winthrop is asked to guest-curate a new museum collection focusing on artifacts recovered from the steamship Pulaski, she's shocked. The ship sank after a boiler explosion in 1838, and the wreckage was just discovered, 180 years later. Everly can't resist the opportunity to try to solve some of the mysteries and myths surrounding the devastating night of its sinking. Everly's research leads her to the astounding history of a family of eleven who boarded the Pulaski together, and the extraordinary stories of two women from this family: a known survivor, Augusta Longstreet, and her niece, Lilly Forsyth, who was never found, along with her child. These aristocratic women were part of Savannah's society, but when the ship exploded, each was faced with difficult and heartbreaking decisions. This is a moving and powerful exploration of what women will do to endure in the face of tragedy, the role fate plays, and the myriad ways we survive the surviving.
