Recruited by British Intelligence to infiltrate the IRA and Sinn Féin during the height of the Northern Ireland Troubles, they were [agents of influence]. With codenames like INFLICTION, STAKEKNIFE, 3007 and CAROL, these spies played a pivotal role in the fight against Irish republicanism. Now, for the first time, some of these agents have emerged from the shadows to tell their compelling stories. Agents of Influence takes you behind the scenes of the secret intelligence war which helped bring the IRA's armed struggle to an end. Historian Aaron Edwards, the critically acclaimed author of UVF: Behind the Mask, explains how the IRA was penetrated by British agents, with explosive new revelations about the hidden agendas of prominent republicans like Martin McGuinness and Freddie Scappatici and lesser-known ones like Joe Haughey and John Joe Magee. Bringing to light recently declassified TOP SECRET documents and the firsthand testimonies of agents and their handlers, Edwards reveals how British Intelligence gained extraordinary access to the IRA's inner circle and manipulated them into engaging with the peace process. With new insights into the spy masters behind the scenes, their strategies and tactics, and Britain's international intelligence network in Northern Ireland, Europe, and beyond, Agents of Influence offers a rare and shocking glimpse into the clandestine world of secret agents, British intelligence strategy and the betrayal at the heart of militant Irish republicanism during the vicious decades of the Troubles.

Early one morning in March 1985, as he climbed the six steps of Margaret Thatcher's prime-ministerial jet on the runway of RAF Aldergrove, little did Willie Carlin know the role Freddie Scappatici played in saving his life. So began the dramatic extraction of Margaret Thatcher's key undercover agent in Sinn Féin | Willie Carlin, aka Agent 3007. For 11 years the former British soldier worked alongside former IRA commander Martin McGuinness in the republican movement's political wing in Derry. He was MI5's man at McGuinness' side and gave the British State unprecedented insight into the IRA leader's strategic thinking. Carlin worked with McGuinness to develop Sinn Féin's election strategy after the 1981 hunger strike, and the MI5 and later FRU agent's reports on McGuinness, Adams and other republicans were read by the British Cabinet, including Margaret Thatcher herself. When Carlin's cover was blown in mid-1985 thanks to one of his old MI5 handlers being jailed as a Soviet spy, Thatcher authorised the use of her jet to whisk him to safety. Incredibly, it was another British (super spy) inside the IRA's secretive counter-intelligence unit, the [nuttin] squad!, who saved Carlin's life. The Derry man is perhaps the only person alive thanks to the information provided by the 'jewel in the crown' of British military intelligence | Freddie Scappatici, aka Stakeknife. In Thatcher's Spy, the Cold War meets Northern Ireland's Dirty War in the remarkable real-life story of a deep under-cover British intelligence agent, a man now doomed forever to look over his shoulder. . .

Thomas Leahy investigates whether informers, Special Forces and other British intelligence operations forced the IRA into peace in the 1990s.

When British troops first deployed to Northern Ireland in 1969, to halt the threat of a new rising force - the Provisional Irish Republican Army - they could not have known that the longest campaign in the British Army's history was beginning. While patrols, vehicle bombs and incendiary speeches are the defining memories of the Troubles, the real war was fought out of sight and out of mind. For thirty years, Britain's Special Forces waged a ferocious, secretive struggle against a ruthless and implacable enemy. Harry McCallion offers a unique insight into nearly every major military action and operation in the Province, having served seven tours with the Parachute Regiment, passed selection for 14 Intelligence Company, completed six years with the SAS anti-terrorism team, and joined the Royal Ulster Constabulary, receiving two commendations for bravery during his service. This book is his blistering account of the history of Britain's war against the IRA between 1970 and 1988 - the most murderous years of the conflict - drawn from his own operational experience and backed by first-hand accounts and unpublished documents. From new insights into high-profile killings and riveting accounts of enemy contact, to revelations about clandestine missions and strategies in combating a merciless enemy, Undercover War is the definitive inside story of the battle against the IRA, one of the most dangerous and effective terrorist organisations in recent history.

A portrayal of the Irish Republican Army includes coverage of its associations with Qaddafi's regime, Margaret Thatcher's secret diplomacy with Gerry Adams, the Catholic church's negotiations with Republican leadership, and undisclosed activities by the Clinton administration. Reprint. 20,000 first printing.

Fishers of Men is the true account of secret operations in Northern Ireland carried out by the British Army's most clandestine unit. It tells the unique story, through Rob Lewis's own extraordinary experiences, of an essential instrument in the fight against terrorism, that of covert intelligence gathering. The men and women who work in this field are a special breed who undertake hazardous risks with unflinching tenacity and professionalism - the price of negligence is high, and the need for secrecy must be preserved even at the expense of personal relationships. The sheer determination and single-mindedness required to achieve selection to this secret world is graphically described, as well as how, against seemingly impossible odds, the operators of the FRU managed to persuade terrorists and their close associates to turn informer. The methods the unit used to target, recruit and handle their contacts, how they protected their informants, and the terrifying life their agents led are all told by an agent handler, using many of his cases to illustrate the sharpness, intelligence (and sense of humour) essential to the job. Fishers of Men fills a gap in the available information about the secret war against terrorism in Northern Ireland. It is a gap that has so far remained largely unexplored - until Rob Lewis's informative and explosive book.

"I am a British soldier," I told my reflection. "I am a British soldier and I'm saving lives. I'm saving lives. I'm a British soldier and I'm saving lives..." Kevin Fulton was one of the British Army's most successful intelligence agents. Having been recruited to infiltrate the Provisional IRA at the height of The Troubles, he rose its ranks to an unprecedented level. Living and working undercover, he had no option other than to take part in heinous criminal activities, including the production of bombs which he knew would later kill. So highly was he valued by IRA leaders that he was promoted to serve in its infamous internal police - ironically, his job was now to root out and kill informers. Until one day in 1994, when it all went wrong. . . Fleeing Northern Ireland, Kevin was abandoned by the security services he had served so courageously and left to live as a fugitive. The life of a double agent requires constant vigilance, for danger is always just a heartbeat away. For a double agent within the highest ranks of the IRA, that danger was doubled. In this remarkable account, Kevin Fulton - former intelligence agent, ex-member of the IRA - tells a truth that is as uncomfortable as it is gripping.

Soldier Spy is the first true story told by an MI5 officer. A shocking, honest account revealing never-before-seen detail into MI5's operation. 'I do it because it is all I know. I'm a hunter of people and I'm damn good at it.' Bestselling author Tom Marcus is the first MI5 officer to tell the true story of British counter terrorism operations on our streets. Recruited after the 7/7 attacks on London, Tom quickly found himself immersed in the tense world of watching, following and infiltrating networks of terrorists, spies and foreign agents. It was a job that took over his life for months at a time and cost him dear, taking him to the limit of physical and mental endurance. Filled with extraordinary, searing accounts of operations that saved countless lives, Soldier Spy is the only authentic account by an ex-MI5 officer of the round-the-clock battle to keep this country's streets safe. 'Very well written, gives a startling amount of operational detail, the biggest shock of all - MI5 agreed to its publication' Sunday Times 'A blistering, visceral insight into life on the front line against terror, revealed in remarkable detail' Daily Telegraph 'Startling, absolutely fascinating. A footsoldier's account out on the street. A vivid picture of surveillance'Midweek, Radio 4 'Gripping. One of the most successful MI5 undercover surveillance officers of his time' Sun

For more than four years Martin McGartland risked his life working undercover as a British agent inside the Provisional IRA. His first book FIFTY DEAD MEN WALKING describes how he was kidnapped by the Provos and taken to a flat to face interrogation and torture, knowing that execution would follow. So, in a desperate bid to save his life, he threw himself from a second-floor window of a block of flats and somehow, miraculously, survived. DEAD MAN RUNNING follows the extraordinary life of Martin McGartland after he re-settles on the mainland and assumes a new identity. It tells of the discovery that his abduction by the IRA was not as a result of Provo intelligence. He had been deliberately sacrificed by MI5. During his years in hiding in the north-east he was stopped, arrested and taken to court on scores of occasions, mostly on trumped-up offences. Police lied in court in an effort to win convictions. Eventually, the Crown Prosecution Service, advised by MI5, ordered his trial for attempting to pervert the course of justice. McGartland was found not guilty by the jury in just ten minutes. Unbelievably, during the trial, Northumbria Police revealed McGartland's real name and his new identity.
