"Carr's debut, the first in a series, is assured and up-tempo, with much to enjoy in characterization and description--not least the homely, life-as-lived details." -Publishers Weekly
This fast-paced fantasy debut set in a medieval world is a winner. Both main and secondary characters are fully drawn and endearing, and Errol's transformation from drunkard to hero is well plotted. Carr is a promising CF author to watch. Fans of epic Christian

fantasies will enjoy discovering a new voice. "Like the preceding series title, Inescapable, this tale of suspense offers a colorful cast of characters, small-town drama, and a hint of romance. A sure bet for fans of Hannah Alexander." --Library Journal

"[Good fantasy books] have to be excellent. Good storytelling and exceptional characters with circumstances that are easy enough to follow and wrap your brain around but keep you entertained and guessing... Cast of Stones has found itself firmly in that list of books. I absolutely, one hundred percent loved this book."

How does the past matter in the present? How is a feeling of 'ownership' of the past expressed in people's everyday lives? Should continuity with the distant past be seen as simply a nationalist fiction or is it transformed by local historical imagination? While recent anthropological studies have focused on reconstructing disputed histories, this book examines the multiple ways in which the past is used by people as a critical resource for interpreting the meanings of a changing present. It poses the issue of the felt relevance of the past in constructing present day identities. The Greek island of Kalymnos is a barren and seemingly bucolic setting of tourist imagination. But its history has been one of almost continuous occupation by foreign powers and of often fierce resistance.

This has made Kalymnians particularly sensitive to seeing their island in a much wider context and to understanding the 'games played by the powerful'. In examining changing gender relations, European integration, and local perceptions of the war in the former Yugoslavia, this book brings together local, national and international perspectives in a unified field. Controversial contemporary practices of dynamite throwing and dowry giving serve as tropes through which Kalymnians explore alternative ways of living in a changing world. Further, the author argues persuasively for the crucial importance of situated fieldwork in 'peripheral' places in understanding the issues and conflicts of a transnational world. This book serves as an highly readable case study of the complex

connections between local and global discourses and practices, and how they are shaped by their relationship to the past.
