SHADES OF DEEP PURPLE What a fitting Title this is. Released in 1968 it was a moderate success in England and Europe. Strange enough it was most successful in the US, where the album reached up to Number 24 on the Billboard Album Charts and The Single HUSHeven reached Number 4 in the US.

~~Space Truckin' [complete] Deep Purple YouTube~~
Deep Purple survived a seemingly endless series of lineup changes and a dramatic mid-career shift from grandiose progressive rock to ear-shattering heavy metal to emerge as a true institution of the British hard rock community; once credited in The Guinness Book of World Records as the globe's loudest band, their revolving-door roster launched the careers of performers including Ritchie Blackmore, David Coverdale, and Ian Gillan.

~~Deep Purple Discography (1968–2014) UPDATE~~
This is not a Deep Purple album: it's a compilation of the singles released in the mid-to-late-'60s by Episode Six (Ian Gillan and Roger Glover's pre-Purple band). Six previously unreleased songs, and solo singles by two members, are also included. For Purple fans, it's interesting for Glover's early compositions (including a hot-rod parody song called "Mighty Morris Ten") and to hear Gillan ...

From their progressive roots with The Book of Taliesyn, to the classic albums In Rock, Fireball, Machine Head, and Made in Japan, Deep Purple epitomized the sound of hard rock for a whole generation. Michael Heatley's account of one of the

Download Free The Complete Deep Purple

bestselling British rock acts of all time looks in detail at every album of the band's original incarnation, from *Shades of Deep Purple* to *Come Taste the Band* and *Made in Europe*. Heatley also covers the recording sessions and the tours, the comings and goings of band personnel, the feuds between Ritchie Blackmore and Ian Gillan, and the final break-up. The career of each band member after the split is also covered (*Whitesnake*, *Rainbow*, and more), as well as what may lie in the future for Deep Purple and their fans.

Accompanied by four films on DVD: *Made in Japan*, *Burn*, *Masters from the vaults*, *Reflections*.

Details of every Deep Purple album and 7" single UK vinyl release on the Parlophone, Harvest and Purple Records labels from 1968 to 1982 with full colour, high quality photography throughout of labels, sleeves and inserts along with detailed analysis and identification of the crucial 1st pressing details of every album and single. Essential reading for collectors of Deep Purple UK 1st pressings. The only book of its kind with this information for vinyl record collectors of rare UK first pressing Deep Purple albums and singles.

Few would deny that Deep Purple were one of the most influential and popular heavy rock bands to emerge from the melting pot of the late '60s. They went through several line-up changes, and stylistic shifts, before splitting up for the first time in the mid

1970s. Talismanic guitarist Ritchie Blackmore carried the spirit on when he formed Rainbow after leaving Purple in 1975, particularly through his partnership with legendary singer Ronnie James Dio. Deep Purple reformed some years later, of course, but many consider this original, sometimes turbulent, decade to be their most significant. Steve Pilkington puts his focus on the period from *Shades Of Deep Purple* in 1968 through to the first dissolution of the band after *Come Taste The Band* in 1976, via such classics as *Machine Head* and *In Rock*. He also discusses the first four Rainbow studio albums, including the classic *Rainbow Rising* and the hit-laden *Down To Earth* album in 1979, taking a look at every song from every album in detail. He also discusses live recordings plus DVD and video releases. The result is the most exhaustive guide to the band's music yet produced, as critical opinion rubs shoulders with facts, trivia and anecdotes to provide a fascinating 'alternative history' of these revered bands. Whether you are a hardcore fan or simply want a guide through the world which lies beyond *Smoke On The Water*, this book is for you.

albums and singles.

This is the story of British rock group Deep Purple, from 1968 to the present day, concentrating on their breakthrough album 'Deep Purple in Rock' and the years 1969-1970.

It is now 35 years since Deep Purple first came together and today -- 14 musicians, 17 albums, and millions of record sales later -- the group remains a monster. *Smoke on the Water* is the first book in more than 20 years to tell the story of this remarkable band, from their grandiose inception in 1968 to the release of their latest album in 2003. Drawing from candid interviews with band members, associates, and fans alike, it traces the group through some of the most turbulent times that any band has survived, placing the band's own music in vivid context and illustrating just how profoundly this one group helped change the world.

This is a comprehensive in-depth exploration of the career and work of one of the world's greatest hard rock bands. With the likes of Richie Blackmore, Ian Gillan and David Coverdale passing through their ranks, Deep Purple was always destined to produce extraordinary music - what was less predictable was in the incredible story of the band's formation, rise to fame and struggle to cope with the immense pressures of international superstardom. Jerry Bloom's sparkling narrative tells the story, warts and all, and it leads us through the band's history with its many and varied line-ups. A must have for any serious music fan; this completely independent critical review
