Tender and passionate autobiographical essays by the National Book Award–winning author of *Becoming a Man*. “Does it go too fast?” Monette asks about life at the beginning of one piece. The answer is a resounding “yes” for the individuals who populate this stunning work of nonfiction. These ten autobiographical essays memorialize those whose lives have been claimed by AIDS. Following *Becoming a Man* and *Borrowed Time*, *Last Watch of the Night* is Monette’s third and final self-portrait. In this collection, he confronts death—those of lovers and friends, and even his own eventual demise—with both bravery and compassion. This ebook features an illustrated biography of Paul Monette including rare images and never-before-seen documents from the Paul Monette papers of the UCLA Library Special Collections.

Achille Mbembe is one of the world’s most profound critics of colonialism and its consequences, a major figure in the emergence of a new wave of French critical theory. His writings examine the complexities of decolonization for African subjectivities and the possibilities emerging in its wake. In *Out of the Dark Night*, he offers a rich analysis of the paradoxes of the postcolonial moment that points toward new liberatory models of community, humanity, and planetarity. In a nuanced consideration of the African experience, Mbembe makes sweeping interventions into debates about citizenship, identity, democracy, and modernity. He eruditely ranges across European and African thought to provide a powerful assessment of common ways of writing and thinking about the world. Mbembe criticizes the

blindness of European intellectuals, analyzing France's failure to heed postcolonial critiques of ongoing exclusions masked by pretenses of universalism. He develops a new reading of African modernity that further develops the notion of Afropolitanism, a novel way of being in the world that has arisen in decolonized Africa in the midst of both destruction and the birth of new societies. Out of the Dark Night reconstructs critical theory's historical and philosophical framework for understanding colonial and postcolonial events and expands our sense of the futures made possible by decolonization.

"I have decided that the trouble with print is, it never changes its mind," writes Ursula Le Guin in her introduction to *Dancing at the Edge of the World*. But she has, and here is the record of that change in the decade since the publication of her last nonfiction collection, *The Language of the Night*. And what a mind — strong, supple, disciplined, playful, ranging over the whole field of its concerns, from modern literature to menopause, from utopian thought to rodeos, with an eloquence, wit, and precision that makes for exhilarating reading.

every prime number up to 7,057. He relates well to animals but has no understanding of human emotions. He cannot stand to be touched. And he detests the color yellow. This improbable story of Christopher's quest to investigate the suspicious death of a neighborhood dog makes for one of the most captivating, unusual, and widely heralded novels in recent years.

A repackaged edition of the revered author's anthology of satirical yet serious essays on evil. In these spirited essays, C. S. Lewis—the great British writer, scholar, lay theologian, broadcaster, Christian apologist, and bestselling author of *Mere Christianity*, *The Screwtape Letters*, *The Great Divorce*, *The Chronicles of Narnia*, and many other beloved classics—discusses evil in the world. Blending irony, humor, and paradox, he tackles religion's most difficult and intriguing questions regarding immorality, belief, and the meaning of prayer. Best of all, the infamous *Screwtape* makes a special cameo appearance in this funny and poignant collection.

New York Times Bestseller: An “elegant” mosaic of trenchant observations on the late sixties and seventies from the author of *Slouching Towards Bethlehem* (*The New Yorker*). In this landmark essay collection, Joan Didion brilliantly interweaves her own “bad dreams” with those of a nation confronting the dark underside of 1960s counterculture. From a jailhouse visit to Black Panther Party cofounder Huey Newton to witnessing First Lady of California Nancy Reagan pretend to pick flowers for the benefit of news cameras, Didion captures the paranoia and absurdity of the era with her signature blend of irony and insight. She takes readers to the

“giddily splendid” Getty Museum in Los Angeles, the cool mountains of Bogotá, and the Jordanian Desert, where Bishop James Pike went to walk in Jesus’s footsteps—and died not far from his rented Ford Cortina. She anatomizes the culture of shopping malls—“toy garden cities in which no one lives but everyone consumes”—and exposes the contradictions and compromises of the women’s movement. In the iconic title essay, she documents her uneasy state of mind during the years leading up to and following the Manson murders—a terrifying crime that, in her memory, surprised no one. Written in “a voice like no other in contemporary journalism,” *The White Album* is a masterpiece of literary reportage and a fearless work of autobiography by the National Book Award–winning author of *The Year of Magical Thinking* (*The New York Times Book Review*). Its power to electrify and inform remains undiminished nearly forty years after it was first published.

Popular fried chicken chain Wings of Glory is under attack from homosexual activists, and Harvest Mission Pentecostal Church is ready to fight back. Caught in the crossfire of a culture war in which they never enlisted, Casper and Brant will each have to find his own answer to the age-old question: Am I really what I eat?
