Rapunzel's Tangled Adventure - Wikipedia

Tangled Web is the third book in the Deadly Curiosity series set in Charleston, SC. Book one and book two, Deadly Curiosities and Vendetta respectively, also follow Cassidy and friends on escapades at Trifles & Folly.

Daniel and Jennifer Kaine rely on their sleuthing skills and their faith in God to help protect two young children whose father has become involved in organized crime

Impoverished by poor crops, William, one of two sons from a rural farm family in western England decides to go to sea, leaving behind his sweetheart, Ursula, in the care of Jack, his brother. Ill-treated by her father, Ursula first goes to Jack for sympathy, but a romance develops, and the tangled web resulting is finally unravelled in tragedy.

Annelise loved the outdoors, animals, and art. As a teenager, her days were spent lying in the grass drawing her cat, or up in the trees studying the bugs that made their home in the leaves. She wanted to do them justice in her artwork. The young artist also loved to paint the flowers in the garden. Annelise captured everything in her sketch book except the horses in her life. As far as her equine friends were concerned, there was no time to sit and draw; time with them was far too precious to waste. Her day at the barn flew by,

brushing, feeding, bathing, and most important, riding. Now, years later, it saddened Annelise not to have a sketch some of her equine companions. Horses, like most other animals, rapidly disappeared during the early part of the twenty-first century, long ago cast out as an expensive nuisance and as a danger to the survival of humanity. Horses, no longer viewed as the sport of kings and a helper to man, were in danger of becoming a food source. Those seeking the perfect planet had eradicated the wondrous creatures that once lived freely and had such a symbiotic relationship of service with humanity. One law after another was enacted. First no animals within city limits, and then no animals within three hundred miles of any population center. Zoos were outlawed because they created too much pollution and used too much water. The only way to see a real animal, exotic or domesticated, was to drive to four central locations, mostly in the plains of the Midwest and the deserts of the far West. Animals were now kept in a handful of sanctuaries. Where had all of these crazy laws come from?

Specialized spy training in 1942 and subsequent dangerous secret missions across three continents result in a young man spinning a tangled web of deceit, which leads to unintended consequences for himself and others.

The town of Amalfi on Italy's beautiful Costiera Amalfitana becomes a place of fear and betrayal for Jerome Wakefield who has been living a sybaritic lifestyle as the author of two highly acclaimed but plagiarised novels. His attempt to avoid discovery of his imposture by moving to the town is rudely shattered by a chance occurrence that leads to blackmail and murder, but others are also out to expose him and he finds his life in great danger. Jake Melrose, who heads the giant American consortium Supascope Entertainments, and Lord Redstone, an English promoter of pop music, mirror Wakefield's own duplicity, while even his wife proves unfaithful as his life of ease begins to unravel towards its inevitable dénouement. Set in the 1970s, this novel may be as much about its readers as the characters in the story, for a large part of humanity was sold mechanically processed sub-musical rubbish both before and after the decade. How it was done is at the heart of this satire on the psychology of deceit and mass manipulation.

These 366 daily affirmations and meditations extend support and wisdom to women who have survived childhood sexual abuse. These 366 daily affirmations and meditations extend support and wisdom to women who have survived childhood sexual abuse. With understanding, compassion, and strength, the author addresses issues such as intimacy, fear, play, sharing secrets, and anger. She also shares her personal knowledge of sexual abuse to illustrate that we can not only survive, but thrive.
