The pistol will function in either double-action or single-  
action mode. To fire in double action, apply steady  
pressure to the trigger until the pistol fires. To fire the  
gun in "Single Action" means that the internal striker  
has to be manually cocked prior to firing.

This is a walther LP3 air pistol typically well looked after with the original box, manual and test grouping card. But like most LP2s and LP3s the exhaust valve is deadder than a dodo. Unfortunately as is happening to most Walthers from this age the plastic seals are self destructing due to age leaving it in need of repair.
