The \$60 Logitech HD Webcam C920 was an easy favorite. Images that we took with the 1080p camera were sharp, color-accurate and crystal clear. The C920's 78-degree field of view could comfortably ...

Best Webcams 2020 - 4K, Streaming, Budget Picks | Laptop Mag

The webcams we compared top out at 1080p, which is high enough to create clear, detailed pictures. However, because of how much it costs to build webcams with that kind of quality, most less expensive models have lower resolutions. Webcams at lower price points more commonly shoot 720p video. Similarly, lower price models shoot at slower frame rates.

Best Webcams | Top Ten Reviews

This is the same aspect ratio that older televisions used. An SD webcam usually records video at 576i or 480i. A 576i SD resolution is equal to 768 pixels horizontally by 576 pixels vertically. SD 480i resolution equals 640x480 video and is a common resolution found in an SD webcam.
